VOL. 101 NO. 37

VICTORIA, B.C., THURSDAY, AUGUST 13, 1942—18 PAGES

PRICE FIVE CENTS

Final Bulletins B.C. Ship Order Totals \$140,000,000

Pensions Minister Mackenzie announced today in Vancouver that shipbuilding contracts worth \$140,000,000 have been authorized for British Columbia shipyards, additional to \$261,000,000 in contracts already awarded.

Beginning an inspection of shipyards and other war plants in the Vancouver area, Mr. Mackenzie said, "the contracts I speak of have been distributed among shipyards in Vancouver, Victoria, New Westminster and Prince Rupert."

"They include contracts for both cargo vessels and naval vessels as well as smaller craft."

Morale Worries Nazis

MOSCOW (AP)—A Tass dispatch broadcast today by the Moscow radio said the effects of heavy British bombing of industrial western Germany forced Dr. Paul Joseph Goebbels, Nazi propaganda minister, to make a personal propaganda tour of that region.

"The morale of the people causes the Hitlerite leadership more alarm the nearer comes the menace of a second front," the broadcast said.

Search for Raider

RIO DE JANEIRO, Brazil (AP)—Several vessels, which informed sources said may include one or more cruisers, were reported today to be engaged in a search for a surface Axis raider in the South Atlantic, but no word has been received here of contact with the enemy ship.

Churchill in Cairo?

NEW YORK (AP)—The Berlin radio which for days past has been circulating unconfirmed rumors that Prime Minister Churchill had flown to a conference with Premier Stalin at Moscow carried a report today that Mr. Churchill had reached Cairo on the return trip.

'To Stagger World'

LONDON (CP)—Sir Norman Birkett, lawyer and lecturer who recently visited Canada and the United States, today told the Overseas League that "as far as production is concerned, America will stagger the world... and I can say the same thing about Canadian production."

He has made two visits to the two nations in the last year, and, on the basis of his observation, discussed "America and Canada in wartime."

He told of inspecting factories at Toronto and Hamilton, Ont., where "as in every part of the Dominion, workers are going all-out."

"We should be proud," he added, "that Canada is at our side and that America is our trusted ally."

Good Sub Hunting

OTTAWA (CP)—The Royal Canadian Navy apparently has enjoyed good submarine hunting in recent weeks, Navy Minister Macdonald said today.

He was commenting on a message of congratulation to the navy by Rt. Hon. A. V. Alexander, First Lord of the Admiralty, and said the message arose largely from the navy's trans-Atlantic convoy work.

Since submarine hunting was the principal business of the Canadian navy it might be presumed the hunting had been "good."

Names Demanded

OTTAWA (CP)—The Canadian government has sent a protest to the government of Japan through the International Red Cross at failure of the Japanese to provide a list of the names of Canadian soldiers and civilians interned at Hongkong, the Department of External Affairs said this afternoon.

Sunday Movies In Edinburgh

NEW YORK—H. V. Kaltenborn in a broadcast from London heard here announces that Edinburgh, famed for its Sabbath blue laws, is to have Sunday movies. Because of the demand for Sunday entertainment for the troops and in the cause of war morale, the authorities have been forced to allow the traditional dullness of the Scottish Sabbath to be shattered.

Ottawa Bans Bargain Trips On Railroads

OTTAWA (CP)—Munitions Minister Howe today announced elimination of certain reduced fares on Canada's railroads, and warned that unless unnecessary civilian travel is limited on a voluntary basis "further restrictions may become necessary."

Effective at midnight, Aug. 31, the following are prohibited:

1. Reduced fares on trips between eastern and western Canada;

2. Reduced fares between the prairies and the Pacific coast;

3. Special fares for convention groups.

"After Aug. 31, all such traffic will be carried at ordinary fares," said Mr. Howe, who issued his statement as acting minister of transport.

In addition to banning reduced fares on trips between eastern and western Canada and the prairies and the coast, the ban also applies to through trips from eastern Canada to the west coast.

Official spokesmen said there is no intention to dishonor reduced fare tickets sold before Aug. 31, with round-trip provisions good for some length of time after that.

Jericho Sale To Military Canceled

VANCOUVER—Jericho Country Clubhouse, one of Vancouver's most luxurious resorts, which was to have been set aside as officers' quarters and mess after its reported acquisition by the Dominion government, will be retained by the club, it was stated today by J. E. McMullen, the club's president.

A farewell dance which had been set for Saturday has been cancelled.

It is understood that the government offer of \$45,000 for the property is about \$30,000 below the value placed on it by the club, and that the club will retain the clubhouse and tennis and squash courts.

Enquiries today showed that while the deal for the property has fallen through, the National Defence Department still planned to install important military organizations in buildings now being constructed on the golf links and other property surrounding the clubhouse.

Army authorities in Victoria said they had no news of the change and referred questions to the Western Air Command.

Air Vice-Marshal Stevenson in Victoria said he knew plans to acquire the Jericho clubhouse had been cancelled by Ottawa but had no comment to make.

"There has been too much said about where our headquarters are going to be," he added. "It is not a matter of public information. Why should we tell the enemy where we are going to be located?"

Plans had been under way to turn Jericho Golf and Country Club into the most comfortable and luxurious war headquarters on the continent.

Army officers recently showed reports "how it was planned to have Pacific Command officers of the army, navy and air force breakfast, lunch and dine together in the club's dining room and use the lounges and verandahs for places where the officers of the three services could meet during the day and discuss war problems with the view of reaching a common understanding. Officers had already been notified that they would also sleep in the club. U.S. liaison officers to the Canada were to be members of this large club mess.

Separate buildings around this central mess were under way for navy, army and air force officers and a fourth building to house a giant map of the Pacific showing defences and movement of ships.

It is understood Defence Minister Ralston besides ruling against any luxurious country club mess and headquarters as being inappropriate for wartime, is ordering more Spartan-like headquarters.

It was also reported today that the command is to be only temporarily on the coast as it is to be established permanently in the interior of the province, behind the mountains, so that it would not be necessary to move it again in case of attack on the coast.

Invasion of Island Not Likely

Evacuation Plan Only Precautionary

R. W. Mayhew, M.P. for Victoria, said today he did not think the Japanese would attempt an invasion of Vancouver Island, but said evacuation plans had been worked out because every precaution should be taken for the safety of the public.

"The Japanese," Mr. Mayhew said, "appear to be too busy on other fronts to attack in this part of the Pacific."

He expressed confidence for the safety of the B.C. coast as a result of United States taking the initiative in the Aleutian and the Solomon Islands, and the increasing air activity of the United Nations in China.

"But because unexpected events have taken place in this war," Mr. Mayhew said, "the government has seen fit to prepare for any eventuality."

"What I consider a very excellent plan has been worked

out for evacuation should it be necessary for any cause," he said. Complete credit for this was due to Harold Husband and his committee. Minor details, which could be solved only by action of the federal government, had yet to be worked out," he said.

"The populace of Victoria and Nanaimo could attach blame to the Dominion government and me if evacuation should be necessary and no preparation had been made," Mr. Mayhew said, "but we can hardly be blamed for taking precautions for the safety of the public even though the likelihood of their necessity is remote."

"Persons insure their homes and make wills but do not, expect fires or death, so on the same basis we have prepared for an emergency by perfecting a plan for evacuation," he said.

Sawdust Famine Near; Price Officials Blamed

Unless Wartime Prices and Trade Board fuel experts break the sawdust deadlock, upwards of one in three household consumers here may have to convert their kitchen stoves and furnaces to use some other fuel.

As they pointed to empty sawdust bunkers, which normally at this time of the year store thousands of units for winter use. Sawdust delivery trucks are standing idle in the yards, and orders from domestic consumers pile up in the fuel offices.

While the sawdust fuel short-

age was intensified here, dealers pointed to hundreds of units of sawdust and millwood cuttings now being burned each day at up-island lumber mills. They said a proportion of this now burned as waste used to be shipped to the city for fuel, but price board officials had disrupted the trade here in such a way that many households will have to go without. Dealers said the fuel supply crisis here had resulted from Ottawa sending out eastern officials who knew nothing about local conditions. Some of the officials, they said, had never heard of fuel sawdust before.

Germans Admit Troops on Defence

MOSCOW (AP)—Fighting, similar in scope and intensity to the battle of the Caucasus, flared today over Russia's northwestern front—the battle line which loops more than 500 miles northwestward from Moscow to Leningrad.

The Germans, claiming the capture of Elista, an obviously dangerous thrust at Astrakhan only 175 miles away, acknowledged today that German infantry and armored divisions were engaged "in a heavy defensive struggle" both to the southeast and to the north of Rzhev, 130 miles northwest of Moscow.

Seventy-one Soviet tanks were destroyed there Wednesday in what must have been a strong mechanized attack by the Red army, the Germans said. Fifty-five of these were said to have been accounted for on the front of a single infantry division.

REPUSED

Southeast of Lake Ilmen, farther to the north, it was acknowledged also that the Russians were continuing aggressive tactics, but it was claimed that all their attacks were repulsed.

On the northern shoulder of the huge German salient gouged deep into the Caucasus, the Germans acknowledged even heavier Soviet attacks about Voronezh, saying the fighting there "increased in violence." Wednesday, and the day before no fewer

than 234 Russian tanks were destroyed there, the Germans declared.

The Russians said they still were gaining ground in the Voronezh sector where they have made numerous crossings of the Don in a flank threat to the German forces.

A mighty new German offensive against Stalingrad appeared to be taking shape in the Don bend today as hard-pressed Russian forces in the Caucasus battled desperately to halt constantly-reinforced Nazi columns advancing toward three vital objectives—the rich Grozny oil fields and the Black Sea ports of Novorossiysk and Tuapse.

Both armies were reported throwing almost unprecedented numbers of men into the fray in this sector and there were indications the battle might develop into one of the mightiest yet seen on the Russian front.

Thus far the Russians seemed to be holding their own on the approaches to Stalingrad, but the picture in the Caucasus, where Hitler is reaching out for the oil to feed his fighting machine, was grave.

New concentrations of dive-bombers were reported pacing the German drive, raining tons of high explosives on Caucasian towns in raids carried out by waves of 40 to 60 planes.

In Solomons Sea Forces, Air Attacks Aid Marines

By MURLIN SPENCER

ALLIED HEADQUARTERS, Australia (AP)—Firmly entrenched at three points in the Solomon Islands, United States marines battled to expand their positions today with the immediate backing of Allied sea forces and long-range air assaults on Japanese communications and reinforcement bases.

A Washington navy announcement that operations had advanced to the point where the marines were consolidating their holdings in the Tulagi area in the southeastern Solomons, indicated that initial land opposition had been overcome after six days of savage hand-to-hand combat.

BITTER OPPOSITION

The United States navy's communiqué said the marines landed as scheduled on three islands, whose names it did not disclose, in the Tulagi vicinity. It added that supporting naval craft were meeting with bitter opposition, suggesting the Japanese had thrown powerful surface and air units into the defence of their ground forces.

Flying fortresses, striking Wednesday at Rabaul, New Britain, in the fifth raid there in five days, knocked out four enemy ships in the harbor of this base from which Japanese troops and supplies have moved to the Solomons.

A 15,000-ton ship and two medium-sized ones were left spouting flames and another large ship was seen sinking by the stern. One of eight challenging fighters were shot down and from three to six others were hit and damaged. No Allied planes were lost.

An unconfirmed Australian report said American parachute troops had been used as shock forces in the assault on the Solomon Islands.

JAP HOLD BROKEN

NEW YORK (AP)—The Japanese hold on the Tulagi area in the Solomons is believed to have been broken by United States marines who have been strongly reinforced, Hayden Leonard of the Australian Broadcasting Commission reported today. His analysis of the situation was heard here by CBS.

Leonard was quoted as saying it was believed "the Japanese have been driven from many of their defensive positions after fierce hand-to-hand fighting."

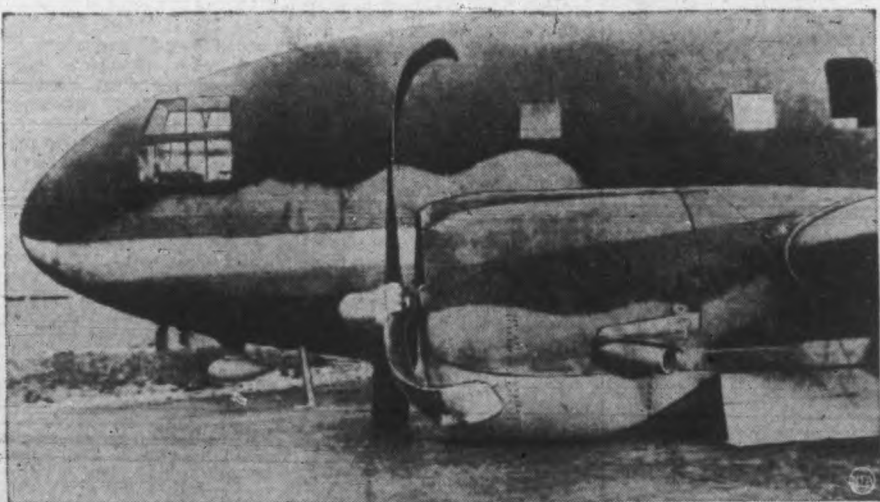

Another Australian broadcast said "hard and confused fighting is still in progress among the rubber plantations on the high plateau of Kokoda," in New Guinea, where the Japanese attempted an overland drive upon Port Moresby.

Hard fighting in which many Japanese were killed and wounded was said to have taken place during the past four days.

TULAGI LOST

LONDON (CP)—The Yorkshire Post's naval correspondent said today the Japanese fleet has "lost control of Tulagi Harbor" in the Solomon Islands.

"The Japanese fleet has not got back there after the naval action and apparently is being kept clear of the island on which the landings were made," the correspondent wrote.

A HAPPY LANDING—AFTER A FASHION—After circling over Buffalo Airport eight and a half hours with its landing wheels stuck back in their retracted position, this giant new Curtiss-Commando military transport slides in to a safe belly-skid landing with a minimum of damage. The plane, world's largest to have two motors, had been making routine test flight when the landing gear became hopelessly jammed.

Mainz Raids 'Terrorist' Cry Germans

BERLIN (from German broadcast)—Casualties and large-scale destruction were caused in a British bombing raid Wednesday night on the Rhineland city of Mainz, a German communiqué today said.

"In the night of Aug. 12," the war bulletin reported, "formations of the British air force renewed their terrorist attacks on the Rhineland area."

"Bombing of residential quarters in Mainz again inflicted loss on the civilian population whose behavior was exemplary."

"Destruction on a large scale and extensive fires were caused."

The high command said four of the raiders were shot down.

A single British plane flying at great height was said to have dropped bombs on a town in western Germany by daylight Wednesday.

"In the fight against Great Britain," the communiqué said, "fighter-bombers during the day and last night dropped high explosive and incendiary bombs on harbor installations and armament plants in south and east England as well as south Scotland."

Nazi Bombs Drop On London Outskirts

LONDON (CP)—Powerful British air squadrons rained high explosives and incendiaries in Mainz again during the night as Nazi raiders ended London's long freedom from attack by bombing the outskirts of the capital.

The attack on Mainz—the second successive night assault on the German industrial centre—was accompanied by raids on Nazi airdromes in the Low Countries, the air ministry said.

Five R.A.F. planes were lost in the overnight operations.

Bombers of at least one Canadian bomber squadron joined the R.A.F. force.

U.S. European headquarters here announced United States army fighting planes had entered the European fray on a large scale for the first time, having engaged in 31 operational sorties during the last 48 hours.

U.S. fighter squadrons, flying in conjunction with R.A.F. fighter units, made three such flights over the coast of France. Twenty of the missions were over the sea and eight were interception sorties off the coast of England, the communiqué said.

Although the Air Ministry did not go into particulars, it was understood unofficially that the "strong force" raiding Mainz compared with that sent against the same city the night before when 250 to 400 bombers participated.

The city's disorganized fire-fighting services and defences, weary and scattered by the first night attack, were virtually

helpless when the raiders came over the second night, an air source said. This accounted for the loss of only five British planes, compared with 16 the night before.

The pre-dawn raid on the greater London area was the first since nuisance raiders unloaded a few bombs before daylight July 30 and some buildings were wrecked.

By mid-morning authorities said all persons trapped in the debris had been removed. Casualties were reported as seven killed and at least three injured.

Sirens Awaken City's Millions

The attack set off the air raid sirens for the third successive time during the sleeping hours of most Londoners. The alarm lasted only briefly and it was believed at first the Nazis had sent a lone plane—perhaps a fast long-range fighter—to turn thousands of fire-watchers out of bed and waken the city's millions.

On the preceding two nights the howl of the sirens had been the only indication of enemy aircraft in the vicinity, but anti-aircraft guns peppered the raiders approaching up the Thames Wednesday night. Nazi planes also caused some damage and casualties at a southwest port.

Besides the small German attack on the outskirts of London, a single raider dropped bombs at two points in southeast Scotland and a few aircraft were reported over the East Anglian coast.

At least three persons were injured in a daylight foray on a south coast town by a lone German fighter-bomber.

Britons had perhaps a better picture of the havoc sown by the R.A.F. and R.C.A.F. Tuesday night than of any raid British air forces yet have made, the work of picked crews which circled the city from start to finish of the attack.

This was a new device by the R.A.F. to check on the effectiveness of its bombers, but their missiles fell in such profusion that one of the observers said there were more fires at the end "than we were able to count."

An audit of recent bomb-trading with the Germans showed the ledger heavily on the credit side for the R.A.F. in June and July.

During those two months 13,000 tons of bombs fell on German cities, a British source estimated. This was 5,500 tons more than in the same period last year and 9,500 tons more than in the same period to 1940.

By comparison, the Germans dropped 450 tons of explosives in the raid on London April 16, 1941, which was the heaviest Nazi air blow on Britain so far.

'Russians Aren't Beaten'

By DE WITT MACKENZIE

Associated Press War Analyst

The Germans continued their advance in the Caucasus, spreading both ways among the rugged northern foothills of the towering mountain range which forms a barrier across the great Caucasian isthmus separating the Black and Caspian Seas.

On the coasts at either end of this mighty barricade are comparatively narrow routes which lead down into the Middle East and some of the world's richest oil fields. The Nazi Genghis Khan is headed for those coastal routes, which may carry him to a great and perhaps decisive victory—if he can travel them.

NOT CHEERFUL

The picture isn't a cheerful one from our standpoint. Still, while some gloom is bound to creep through the chinks of our armor, we must remember that nothing decisive has happened yet despite Hitler's spectacular victories.

If the Nazi leader had utterly smashed the Russian army—as he has been trying to do—the story would be different. Then something decisive would have happened. But so long as the Red fighting machine continues to function as a unit, the Russians aren't beaten by a long way and

Hitler has plenty of trouble on his hands.

Some military observers believe the Nazis have the strength to battle their way down both coastal routes to Batum and Baku, thus acquiring invaluable strategic positions and capturing the oil which they need to enable them to continue the war. That would be a disaster for the Allies.

It must be admitted at once that this is a possibility. There's no use blinking at the fact that the situation is serious. Still, there are a good many of us who can't see that such a breakthrough is inevitable. On the contrary, I believe the Russians have a fair chance of keeping the Huns north of the Caucasian mountain range.

As a matter of fact, the Turks think perhaps Hitler will halt his drive and consolidate, if and when he has completed his conquest of the northern Caucasus down to the mountains. The idea is that he would rest there through the winter and strike again in the spring.

I hope he does that, because he will have achieved what likely will be an empty victory. That's so because it isn't probable that he can stand another winter without fresh supplies and still emerge in the spring strong enough to fight his way down to the Middle East.

F.D.R. Refuses To Appease Gandhi, Nehru

By ELMER DULMAGE

WASHINGTON (CP)—Any hopes Gandhi or Nehru may have had that the United States would offer to mediate between the British government and Indian Congress Party leaders are groundless.

It is learned here on good authority that "President Roosevelt has no intention of taking a hand in the Indian situation. He is represented as being in complete agreement with British policy there."

Ever since Louis Johnson appeared in New Delhi as the President's personal observer during the mission of Sir Stafford Cripps, there have been repeated suggestions from various parts of the world that Mr. Roosevelt was interested in any possible settlement even if it involved the granting of immediate Indian independence.

China in particular hoped for a step by the United States before Gandhi threw his country into a turmoil of "disobedience," violent and nonviolent.

Gen. Chiang Kai-Shek, who met Gandhi during his visit to India several months ago, has favored—and no doubt still does—appealing the nationalist leader.

It is believed, however, that even Chiang no longer expects Britain to falter in its course of fighting the Indian revolt and is aware that President Roosevelt will do nothing to appease Gandhi.

The British army in India is said to be the largest ever stationed there and is believed capable of resisting with good chances of success any Japanese invasion attempt. An undisclosed number of United States aircraft are also in India.

India Quiet

BOMBAY (CP)—New Delhi and Bombay, trouble centres earlier this week, apparently were returning to normal today as the outbreaks of violence over Mohandas K. Gandhi's drive for immediate independence from British rule slackened off after four days of clashes between mobs and police.

Although some shops in New Delhi still were closed, people were moving freely through the streets which Wednesday were the scenes of repeated disorders.

The situation in Bombay was quiet all morning with no incidents of any kind. Workers were returning to the mills.

Lyttleton Says

'Terrible Increase In War Crescendo In Next 60 Days'

LONDON (CP)—Oliver Lyttleton, Minister of Production, reported today that "Allied shipping losses decreased in July" and that the toll taken of U-boats during the past three weeks was "well above the average."

Mr. Lyttleton, who recently returned from the United States, said nothing had happened, however, to revise his recent statement that the "next 80 days would be the gravest in our history."

"There is no doubt whatever that the Russians have received a very severe blow in the south," he explained in a speech.

The Germans "still are far short of their target program in the production of U-boats," he added. "We shall try, and I think we have already succeeded, in making that target unobtainable by heavy attacks on the yards and ports where the U-boats are mostly built."

"However you look at it, it is clear that the symphony of war is rising to a crescendo and in the next 60 days we shall see a terrible increase in the intensity of the struggle," the minister said.

To Avert Strike

WASHINGTON (AP)—Secretary of Interior Harold Ickes announced today he had dispatched to Seattle a representative empowered to take action to "avert a threatening coal and wood emergency in Washington and Oregon."

Parker Conviction Wrongly Reported

PORT ALBERNI (CP) — Two fines of \$50 each were imposed in police court here Friday by Magistrate H. C. Wright on John Allan McLennan Parker following the latter's conviction on two charges laid under Defence of Canada Regulations of having photographs of a defence zone in his possession.

(The Canadian Press erroneously reported one of the charges on which Parker was convicted was of making "certain utterances alleging misconduct within the army." Both charges related to possession of photographs.)

Germans Overhaul Espionage System

LONDON (CP) — The Nazis have been forced to overhaul their intelligence and espionage system, disrupted by swift blows at German spies and fifth columnists in the United States and Latin America, according to Die Zeitung, free German newspaper published in London.

The supreme command of the German spy system now has been transferred to Hitler's headquarters from which agents' activities will be synchronized with military movements, the paper said, in an article reviewing the Nazi espionage network. Headquarters previously were in Berlin.

The spy ring is operated by three organizations, the military intelligence department, the League of Germans abroad and the Gestapo, it continued. Chief liaison officers representing each group have been established in the new headquarters, where orders are dispatched to the main branches and distribution centres for Nazi agents in Spain and Turkey.

To avoid "incidents" and observation by members of British and Allied diplomatic missions

named "Stuetzpunkt Spanien," have been transferred from Madrid to Vigo, where the Gestapo headquarters for the Iberian Peninsula and north Africa have also been centred.

"Branch Orbits," the Turkish control point for Nazi espionage to the Levant and Middle East, has been set up in the summer palace of the German embassy at Istanbul, instead of at Ankara. Its most important branch is in the offices of the German consul-general in Alexandretta.

Spies, trained in special centres, take a long course devised by Ernest Bohle of the German foreign office, the paper said. To be accepted as candidates they must have a high standard of fitness, a clear political record and ability to speak with accent the language of the country where they are to operate.

Prospective agents first are instructed by old experts, former leaders of Quisling groups, members of former German diplomatic missions

who have been allowed to settle in Germany. The course for future United States saboteurs is supervised by Fritz Thomsen, former German minister to the United States; the Oriental course by Hans Grobba, former German minister to Baghdad, and the Latin American course by Von Therman, former German minister to the Argentine.

Salt Spring Servicemen Are Reported Ill

Fighting men from Parksville and Salt Spring Island are reported sick in latest casualty lists from Ottawa.

Sgt. Richard Peyton Baker, son of C. E. Baker, R.R. No. 1, Ganges, Salt Spring Island, is reported "dangerously ill" in the latest R.C.A.F. casualty list.

Pte. Alexander Edwin Shaw, son of Douglas Carl Shaw, R.R. 1, Parksville, is reported "seriously ill" in the Canadian (Active) Army's latest casualty list. Shaw is with the Royal Canadian Army Service Corps.

NEW YORK (AP) — Many Brooklyn girls whose boy friends are away to war have taken a pledge — no dates for the duration. They've formed the no-date-club. N.D.C. members, many of them war workers, will train for Red Cross work to fill out the dateless evenings.

Fears Boeing Out of Business

WASHINGTON (AP) — H. E. Bowman of Seattle, told the U. S. Senate finance committee today that the pending revenue bill "probably would end the existence" of Boeing Aircraft Corp., which manufactures "Flying Fortresses" and other military aircraft.

He asserted Boeing, of which he is treasurer, would have to turn over 88.75 per cent of its net profits in taxes if the bill becomes law.

Bowman testified he had been urged by members of the Senate defence investigating committee to protest against provisions of the revenue measure.

He said that because Boeing had suffered heavy losses during 1936-39 while it was developing Flying Fortresses and other craft, and because it could claim only a low invested capital credit 96.6 per cent of its net income would be subjected to the proposed 90 per cent excess profits tax.

Hero Worship National Tonic

SASKATOON (CP) — Wilfred H. Goodman, managing editor of Canadian publishers war finance publicity committee, today told the annual convention of the Canadian Weekly Newspapers Association here it would be a "national tonic" if Canadians started a campaign to honor their war heroes.

"Hero worship is something of which we need not be ashamed," said Mr. Goodman. "It is natural that an ambitious people should want to pay homage to individuals who stand as symbols of the perfection of human effort. Why then should anyone thwart the eagerness of Canadians to honor individual Canadian war heroes?"

He said that proof the Canadian people will respond was offered recently at Ottawa where crowds lined the streets to cheer the arrival of two heroes of the R.C.A.F. — Emile Morin and Laurent Robillard.

"Don't let that wounded youngster come back from England and slip into town without an official reception and public ovation for him," he urged.

"If there is any one thing the matter with this Canada of ours, if we are halting in some sections of our war effort when we should be running . . . we can trace the trouble back to a common cause — the deplorable fact that there are far too many Canadians who won't say what they think, who for one reason or another pull the blinds down over their true feelings."

Channel Guns Duel LONDON (CP) — British and German coastal cannon on opposite sides of the English Channel exchanged heavy gunfire today from midnight virtually until dawn.

Observers described the shelling as one of the hottest in months. The Nazis, whose batteries opened the cannonading and drew a quick answer from heavy artillery on this side, apparently had more guns in action than usual. Some of their salvos contained six shells.

There was no immediate indication whether the targets were ashore or afloat but each side often fired on enemy shipping in the narrow strait, the other side answering.

R.C.A.F. Promotion

LONDON (CP) — Sqn.-Ldr. Len Fraser of Winnipeg and Vancouver has succeeded Wing-Comdr. John Fauquier, D.F.C., of Ottawa as commanding officer of a Halifax bomber squadron and has been promoted to wing commander.

He formerly was in charge of a flight in the same squadron and took part in many raids, including the 1,000-bomber smashes on Cologne, Essen and Bremen.

Fraser, a former bush pilot, and Fauquier were instructors together at an R.C.A.F. training school at Trenton, Ont., before coming to Britain.

Fauquier will assume "new duties."

Dutch Sub Bags 2 Jap Ships

LONDON (CP) — A Netherlands submarine torpedoed two Japanese supply vessels which "must be considered total losses," the Netherlands government in London announced tonight.

A submarine operating with the eastern fleet attacked a convoy of Japanese supply vessels and two ships were hit, the communiqué said.

When last seen the vessels were "fully ablaze and must be considered total losses."

REPORTED KILLED — Lieut. General William Henry Ewart Gott, 45, who played an outstanding role in Britain's North African desert campaign, reported by a London newspaper to have been killed in action in recent fighting.

Tax Tables Show How Figures Work

OTTAWA (CP) — Tables showing the amount to be deducted by employers from employees' cheques to make compulsory income tax payments on 1942 income, made public today by the National Revenue Department, disclose that in some cases deductions for a married man with two dependents will be higher than for married men with no dependents or one dependent.

The situation occurs when the taxpayer earns from \$100 to \$102.49 a month and whose tax is payable by monthly pay-cheque deductions. A married man with no dependents has a total tax payment of 60 cents a month and so does a married man with one dependent. With two dependents, the married taxpayer in the same wage category is billed \$1.06.

In each case, the "savings portion," refundable after the war, is the full amount of the tax. Officials said that in almost every case the married taxpayer in the \$100-\$102.49 class will be able to claim tax deductions to the full extent of the savings portion, meaning that no tax is payable to the government.

The married man with two dependents is billed for more than the others because the tax on 1942 income under the new collection set-up is payable starting Sept. 1. Each taxpayer gets a credit in the calculations for National Defence tax paid between Jan. 1 and that date.

The married man with two dependents pay less defence tax than the other groups and hence has less credit. Next year, when there is no National Defence tax credit, the figures will drop into their correct relationship.

Military Bands To Be Improved

OTTAWA (CP) — Appointment of Maj. F. W. Coleman, 48, of the Royal Canadian Artillery, as inspector of regimental bands, was announced today by national defence headquarters.

"Object of this appointment is to raise the general standard of unit bands in Canada as well as to establish, some time in the future, a Canadian military school of music," an official statement said.

Maj. Coleman, graduate of the Royal Military School of Music, Lieutenant of the Royal Academy of Music and associate of the Royal College of Music, has had 34 years' military service — 20 years with the British Army and 14 years with Canada's permanent force.

U.S. Bombers Score

CAIRO (AP) — Heavy bombers of the United States army air forces in the middle east have attacked enemy warships in Pylus harbor on the west coast of Greece, scoring heavy damage, it was announced today.

Two direct hits were registered on one cruiser, causing a large explosion aboard, and black smoke was seen pouring from a second cruiser as a result of either a direct hit or a near-miss.

There also was a terrific explosion aboard a third cruiser after a bomb burst next to it.

The raid was delivered in the light of the setting sun on Tuesday.

To Get More Pay

POWELL RIVER (CP) — An upward revision of wages has been granted by the regional wages control board at Vancouver to certain groups of employees of the Powell River Company Ltd., it was announced here today by officials of the International Brotherhood of Pulp, Sulphite and Paper Mill Workers' Union.

Women Replace Men at Alberni

More girl mill workers are wanted in Port Alberni. Already employing 140 to 170 women, Alberni Plywoods Ltd., Port Alberni, is advertising widely for applications for 40 more.

H. S. Berryman, manager of the firm, says when the plant started operations in January last it was realized that a shortage of male labor would be encountered and a policy of employing 50 per cent of women was instituted at the outset.

So successful was the experiment and so quickly did the available supply of men disappear, either into the armed services or to work in the shipyards and other defence projects, that the percentage of women grew and now stood at 60-40.

Eventually, Mr. Berryman said, the plant will employ nearly all women.

WORK SATISFACTORY

Work of the women in the mills has been found to be particularly good. The whole output of the mill has been purchased by the British Timber Controller, and one of the tasks in which the women are employed is in bundling the plywood for shipment. Other tasks they perform include operation of drivers, graders and sanders. There is scarcely a job in the mill that could not be filled by women, Mr. Berryman said.

Wages of women run from 36 to 60 cents an hour. That is less than men performing similar tasks receive, but Mr. Berryman said, this is quite in order. Seven or eight women are needed on jobs that five men could perform, and, in addition, social costs are considerably higher when women are employed, a matron and better lunchroom facilities being provided.

He added that so far there is enough living accommodation available in Port Alberni to care for any anticipated influx of women workers.

Man Buys Girl For \$75 From Father

BANCROFT, Ont. (CP) — A 12-year-old girl, who was to be married to a man who allegedly "bought" her from her father for \$75, using an old overcoat as a down payment, was back with her parents in their North Hastings county one-room shack today while Magistrate J. L. Lloyd ponders her future.

William Keller, the 42-year-old farm hand she was to have married, was sentenced in this village, 65 miles north of Belleville, three weeks ago by Magistrate Lloyd to two years in reformatory, one year an indefinite sentence, after he pleaded guilty to a statutory offence. John Bounhour, the girl's 60-year-old father, will appear Sept. 2 to hear the magistrate's judgment on a charge that he aided and abetted Keller.

Bounhour was given a hearing Wednesday. The magistrate took under advisement an application for custody of the child made by the Hastings County Children's Aid Society.

Provincial Constable S. Palameter, who arrested Keller as he and the girl applied for a marriage license on July 22, told the magistrate the story of the backwoods transaction in court. He said Keller claimed he "had a right" to the girl as he had bought her from her father.

"When I questioned Mr. Bounhour on the same day he replied that he had sold his daughter for \$75 cash," the constable said.

"Keller also informed me that he did not have the money when the contract was made last fall, but gave Bounhour an old overcoat which was accepted as a down payment."

Power Visits Fliers

LONDON (CP) — Hon. C. G. Power, Canadian Air Minister, and Air Vice-Marshal L. S. Breadner, chief of the air staff, today began a tour of R.C.A.F. establishments in Britain.

The Air Minister also drew attention to the fact Canadian Squadrons are co-operating with United States forces in Alaska.

In answer to a question, he said "we think our Canadians are entitled to retain their identity," and added: "It is better for them, and we hope that as time goes on more and more Canadian crews will be together, not only in R.C.A.F. squadrons, but also in R.A.F. squadrons."

San Francisco Alert

SAN FRANCISCO (AP) — The "San Francisco Bay area" was under a 16-minute alert today. The fourth fighter command ordered the alert at 8.13 a.m. The all clear came at 8.29 a.m., after, the army said, "An unidentified target was identified."

2 Germans Killed By Hand Grenades

VICHY (Delayed By Censorship, AP) — A Paris dispatch said today two German soldiers were killed, eight seriously injured and 11 slightly wounded when three hand grenades were tossed into a group of 50 drilling at Jean Boudin Stadium.

The grenadiers (evidently Fighting Frenchmen) had concealed themselves in shrubbery alongside the Stadium.

Duncan Council

DUNCAN — Investigation is being made by the city council covering control of the size of the load and quantity of wood fuel being sold in this city.

The Victoria parks superintendent will be given permission to come to Duncan and lay out the gardens at the E. and N. Railway depot.

Two Duncan volunteer firemen will be sent to New Westminster in September to attend a fire school there, and gain information and instruction.

Accounts totaling \$3,567.25 were passed for payment.

The W.A. to the hospital's request that the date of their tag day be changed to Sept. 12, and the Kinsmen's request for an "apple" tag day on Oct. 10 were granted.

The request of the Imperial Order Daughters of the Empire to hold a second tag day was not allowed. Notice was received from the superintendent of education to the effect that three new trustees will have to be elected in September for the Consolidated School Board.

The Cowichan Rangers were given permission to use a portion of the old school building as their headquarters.

SAFeway Homemakers' Guide

* How to get sure-fire canning results * Guaranteed fresh produce to "put up" * An easy way to find time to play

Don't risk spoilage this year in your Home Canning

Read and remember these precautionary suggestions that come from the Safeway Homemakers' Bureau.

To avoid the danger of spoilage that botulism bacteria brings, pressure cooking is the only really safe method of processing meat, fish, poultry, and all vegetables except tomatoes. Pressure cooking maintains the above-boiling temperature required for sterilization.

Tomatoes and fruits, because they are acid, don't favor growth of botulism bacteria, so you may can fruits and tomatoes by any reliable method that's convenient. Sterilization of jars, lids, and rubbers is always important. Examine them before you begin, and discard any that are nicked and cracked or loose fitting.

Wash jars (and old lids, if reusable) in hot soap suds; rinse well; cover with warm water in a large kettle or dish pan, and boil 15 min. to sterilize. A clean dish towel on the bottom of the pan guards against breakage. Let jars stand in hot water 'til ready to use.

Sterilize new tops or lids by placing in pan and covering with boiling water. Always use new rubbers; sterilize in boiling water. No matter what method of canning you use — (open kettle, hot or cold pack), or what means of processing (water bath, steam cooker or pressure cooker) — follow specific directions.

Help on Farms

TORONTO (CP) — Toronto board of control has approved a motion to release 75 civic employees on Friday and Saturday for farm work. The motion was the suggestion of Con. Saunders. Groups will go out in parties of 25 to Newmarket, Brampton and Milton areas, to help in the labor shortage.

A' Gas Cards For Salesmen

OTTAWA (CP)—Salesmen who drive trucks will be granted a category "A" gasoline ration book on the same basis as salesmen who drive passenger cars. It is announced by Department of Munitions and Supply. Until now, all trucks have operated on commercial category ration books.

Recently James Stewart, services administrator of the War-time Prices and Trade Board, issued an order prohibiting the use of a truck as a means of transportation of a salesman.

G. R. Cottrell, oil controller, says salesmen thus deprived of light trucks for taking orders were seeking passenger cars to carry on their work.

"When we discovered this," added Mr. Cottrell, "we decided to allow them category 'A' books for such trucks, and we have reached an agreement with the War-time Prices and Trade Board which will enable such salesmen to carry on."

"Under the new ruling the salesman who drives a truck will surrender his commercial ration book to the nearest regional office of the oil controller. In return he will receive a category 'A' book. On receiving this book he may apply for a special permit from the nearest regional office of the War-time Prices and Trade Board."

Chart Cologne By Canterbury

LONDON (CP) — In the wake of the R.A.F.'s smashes at Germany the Ministry of Information issued eight drawings showing these raids in proper perspective with Germany's reply raids. The drawings show 1,000 planes heading for Cologne. Hitler's answer was 25 bombers over Canterbury the next night. To get

Not Much Help

to Cologne the R.A.F. flew 150 miles over hostile territory, while the Nazis flew over only 10 miles of hostile country to reach Can-

terbury. And in Cologne there were 700,000 people dependent on industry as against only 7,000 in Canterbury.

Letters to the Editor

STORE HOURS
May I be accorded space to air an inconvenience, pertaining to the Victoria City early closing by-law? The majority of your readers are aware the local shipyards are now working on a seven-day a week basis. The consequence being a goodly number of fellow workers' day off falls on Sunday. Therefore, some work all the week up to 4:30 o'clock Saturday. Considering the stores close at 5:30 o'clock, one can see at a glance, those workers desirous of having their curly locks shorn, most assuredly have to step on the gas when one takes into consideration that barbers' shops close at 6 on Saturday.

A while back the local Barbers' Union appealed through the local press for public support because the soldiers were having their hair cut in barracks, thereby intruding on their professions. Prior to the war the workers in the shipyards ceased work at 12 o'clock noon on Saturdays. Those days are no more.

Again, take wearing apparel. In fact all kinds of merchandise, what opportunity are workers accorded in conjunction with their womenfolk, when the stores close at 5:30 o'clock. One notes the cities across the Sound cater to the workers, in keeping their respective stores open certain nights in the week. In my humble opinion, the volume of business that would be done, if the stores were open on Saturday night, would warrant the hiring of additional help.

The said by-law would have to be somewhat modified, in cope with the now prevailing inconvenience brought on by the war. But I trust and hope action will be taken to end this well-nigh intolerable inconvenience.

WALTER INWARD.
1446 Lang Street, Victoria.

C.C.F. Leader Denies Party 'Wooling' Quebec

MOOSE JAW, Sask. (CP)—M. J. Coldwell, C.C.F. leader, said Wednesday the reason the Allies cannot open a second front in western Europe is "because we have failed to mobilize our shipbuilding or industrial resources."

"Our men spoil for action, but men without adequate equipment are merely like lambs led to the slaughter," he said in an address to a C.C.F. club here.

"That was the moral of Hong Kong," Mr. Coldwell charged "big business and their newspapers" with seeking to regiment manpower "so that they can handle them in their own way now and after the war as well."

This, he said, prompted their demands for conscription of manpower and caused them to "squel" at C.C.F. proposals to conscript their industries and wealth at the same time and on the same terms.

"If we should lose this war—which God forbid—we should lose it not because we lack men but because we refuse to mobilize our industrial resources to equip our men as our enemies are equipped," he said.

He termed "as false as it is reprehensible" an assertion which he attributed to the newspapers of big business that the C.C.F. party was "wooling" Quebec. He and his followers had voted against the conscription bill not because it would suit Quebec nationalists but because the bill "settled no issue and contributed not one jot or tittle to our war effort."

If the C.C.F. party were wooling Quebec, it would not be so active in seeking the closing of the Vichy Legation and removal of the ban on the Communist Party and Jehovah's Witnesses.

"The fact is that the workers and farmers of Quebec are awakening," he said. "They are looking to the C.C.F. as the farmers and workers elsewhere are looking to us, because we have fought a clean and consistent fight on behalf of the masses and we shall continue to do so in spite of a combination of newspaper monopolists, capitalist profiteers and liquor interests."

"We are engaged in a military war overseas for democracy."

Malleks

Equally, we are engaged in a political struggle in Canada for democratic progress. Ultimately we shall prevail.

"That is why we are being fought so bitterly. We know that victory depends upon an all-out effort and that the same all-out effort will be required to win the peace."

"You can not win, either, with a production-for-profit, contract system."

Believes Canadians Behind Americans

TORONTO (CP)—Dr. Gerald A. Foster-Brannon, author, lecturer and psychologist of Richmond, Va., says Canadian industry is five or six years behind American industry in matter of leadership.

Dr. Foster-Brannon is here studying industrial relations in war plants and lecturing plant foremen and supervisors on the importance of good leadership in wartime industry.

"You Canadians have thousands of young men and women working in war factories, every one of whom is a potential foreman or supervisor, given the proper training," Dr. Foster-Brannon said.

"I believe this war is going to be won on the assembly lines of the United Nations. Every man has a definite place in our economic system, and every man's work is worthwhile if it is done well."

Sidetracked Again

ANNOUNCEMENT IS MADE BY THE Steel Company of Canada that under arrangement with the Dominion government it is proceeding with the construction of a large electric furnace and a Bessemer converter at one of its eastern Canadian plants. The new units, which will be in full operation by next April, will give an added ingot capacity of 250,000 tons a year, which can be rolled into merchantable form without additional expenditure for mill equipment. Canada needs this increased steel production. Our shipbuilding program has been lagging for lack of it. It should have been undertaken months ago, and on a larger scale.

For British Columbia, however, there is disappointment in the announcement, as it sidetracks efforts and plans for the establishment of a steel industry at Union Bay on this island, or elsewhere on this coast. The federal steel controller explains in connection with the announcement that the desired increase in steel output can be effected more quickly and with less use of critical materials through expansion of an existing eastern plant than by initiating a new industry in the west.

Last year Mr. R. W. Mayhew, M.P., campaigned at Ottawa for the establishment of a steel plant on this coast. Valuable time in the matter of bringing about an increase in production was lost through the failure of the government to take action then. Our whole shipbuilding industry is being held back through shortage of steel and delay in getting it from eastern plants. As Minister of Trade and Industry for British Columbia, Hon. Herbert Anscomb has been energetic in seeking to advance the campaign. In their efforts both men have encountered the opposition of eastern enterprises, which, having a monopoly of the western market, are unwilling to surrender that market to a new western industry. The only way of countering this opposition is, as Mr. Anscomb says, by bringing sufficient pressure to the door of the federal government by public opinion.

British Columbia has lost out for the time being, but the campaign should be continued. In this area there are all the raw materials for the industry and a growing market. If the war should be prolonged, the country will rue the failure to make possible the maximum production of such an essential war commodity as steel.

Rewards For Service

THERE IS NO REASON WHY THE KING government should hesitate to accept the recommendation of the special committee of the House of Commons favoring the creation of distinctive nontitle-bearing honors for Canadians. Nothing in the acceptance of such a proposal would constitute any basic retreat from the attitude which Parliament manifested more than two decades ago toward a system considered unsuitable for this young and progressive Dominion. But so long as Canada has no official means of bestowing some additional mark of appreciation on her sons and daughters whose meritorious attainments bear a direct relationship to their country's role in a struggle for a great principle, she lacks the agency of a visible stimulant which, after all, is part and parcel of human endeavor in many fields.

The odium of snobbery assuredly could not attach to such reward for outstanding achievement. None but a hide-bound and not particularly imaginative minority would advocate a return to the practice which prevailed prior to parliamentary approval of the resolution of 1919 praying that His Majesty refrain from the bestowal of titular honors. British peoples everywhere understand and appreciate the system as it applies to Great Britain and, in a more restricted form, to Australia and New Zealand. It is to the point, however, to note the incongruity of the absence of at least some form of distinctive recognition of unusually brilliant military or public service in the senior Dominion of the British Commonwealth.

India's Potential

JUDGED BY A CROSS-SECTION OF THE newspaper comment of this hemisphere the new situation in India is more sympathetically appreciated than any former exhibition of the Gandhi type of civil disobedience. It is now known for precisely what it is—an out and out challenge to law and order, bad enough in normal times, but fraught with incalculable consequences when a rapacious enemy is waiting at the gates to cash in on chaos. A majority of the influential dailies in the United States and Latin America recognize that the problem of India in all its ramifications cannot be solved by concessions to one group when such concessions would be bitterly contested by other substantial groups. And India is not a country; it is a continent.

How many people realize, for example, that India covers an area as large as Europe, European Russia excluded? She has fine harbors on her western and eastern coasts, and her 42,000 miles of open railways comprise the largest railroad system in Asia.

Her 388 million persons represent approximately one-fifth of the human race. Her mineral wealth in iron ore is almost equal to that of the United States. She has one-third of the world's manganese, nearly 60 billion tons of coal, enough bauxite to serve the needs of half the world and more mica than any other country. Most of her resources are still untapped; but the potential is enormous. Her waterpower, although only 3 per cent developed, ranks next to the hydro-electric capacities of Canada and the United States. She is the world's second largest producer of jute, rice, tobacco, cotton and tea, and the fourth largest producer of wheat—a foodstuff which Russia will sorely need. Her production of sugar is the world's highest. Her steel output soon will touch the 2-million-ton-per-year mark, an increase of 100 per cent since the outbreak of the war. She has an army of 1,250,000, and is drawing recruits at the rate of 70,000 per month on a purely voluntary basis. And the Indian soldier is noted for his endurance, courage and skill.

It is to be noted, too, that India has 1,500 engineering work shops, including 23 railway establishments producing war materials. Production embraces small arms, munitions, bombs, grenades, explosives, the smaller types of guns, as well as those of high calibre, gun carriages, Bren guns, rifles and armored bodies for motor vehicles. Output in all these categories has been increased since the start of the war by from 100 per cent to almost 700 per cent. Newly constructed shipyards are turning out corvettes, minesweepers and patrol boats in quantities which are guarded secrets, and there are important facilities for the overhaul and repair of ships.

It is when one contemplates the potentiality of these activities—what India could do to change the fortunes of war for the United Nations, in her own interest and to insure beyond peradventure the independence she craves—that the full impact of Gandhi's extraordinary power over a section of the Indian people makes itself felt in such awesome fashion. Nor does it help matters to say that he has badly let down his best friends; he prefers to remain deaf, dumb and blind to reason.

Time for Fair Play

ONE OR TWO NEWSPAPERS USE A good deal of space and the occasional speaker employs considerable lung-power to advocate the formation of a national government. Never by any chance is the poor benighted inhabitant of this fair land given the slightest inkling of what these special pleaders have in mind to satisfy what they try to make out is the nation's burning desire. For practically everything not in accord with their own personal views the "politicians and the political parties" are blamed in one breath and "the citizens" are exonerated of all culpability in the next. But who are the politicians and the political parties if not the citizens? And how would the protagonists of a national administration immunize the members of such a body from the "political" virus?

Under our system of government a free people elect men and women to represent them in Parliament by the exercise of their clearly-won franchise. No better method has yet been devised to conform to this constitutional and democratic process—which, at the same time, denies the usurpation of power by demagogic cliques. What evidently annoys some critics of the present administration at Ottawa—which neither boasts infallibility nor expects to become perfect—is that those they would like to see running Canadian affairs were rejected by us, the people of Canada.

But is it not time to call a halt to the ceaseless vituperation against public men who are striving to do their duty by their country in the face of tremendous difficulties—more often than not at the expense of considerable physical and mental strain? Moreover, such a chorus of castigation can scarcely inspire the rising generation with a desire to assume the responsibilities of leadership in the trying days ahead. And is the supply of constructive criticism completely exhausted?

Methodical R.A.F.

BRITAIN'S BOMBER COMMAND'S second heavy plastering of the vitally important Rhenish railway junction of Mainz reflects a technique which snugly fits into the BBC's warning to the railway workers of strategic northwestern France—reminding them that "it is the object of the R.A.F. to disorganize railroads in France and Germany."

French railroads, of course, are immensely valuable to the German war machine; they would become more so in the event of operations arising from the establishment of a second front. But, says the BBC, the R.A.F. attacks will be concentrated mainly on locomotives and freight trucks and "will become heavier each time." And even though movable targets may often escape shattering blows from above, 1,000 and 2,000-pound bombs dropping on the roadbed are calculated to cause not a little dislocation.

It is interesting to note, incidentally, that in Tuesday's heavy raid on Mainz reconnaissance planes were on duty to watch the progress of the bombing, an innovation which must have contributed to the efficacy of the follow-up visit last night. And the fact that only five planes failed to return this morning is eloquent of a useful disorganization of the defence resources.

Looking back lately through some other fiction, we came upon a last spring's seed catalogue—the liar.

Bruce Hutchison

TYPICAL

LATELY, THEY TELL ME (for I have seen no outward evidence of it), some of the chief directors and actors of Hollywood have been making an important movie here in Victoria. Some of the public no doubt have seen them at work, but most people, like me, will never bother to cross the street to observe the process, even though movies are currently regarded as the most romantic activity of our time.

This is highly typical of our entire attitude towards life nowadays. We have no real curiosity about anything. We never try to find out how things are done or what is happening about us. The majority of men driving on our highways have never looked under the hoods of their cars; or if they look it is only to marvel at the intricate machine which they do not understand and could not repair.

We hardly know nowadays how anything is done or made. The war factories surge up throughout the land and we hear of them, but we never see them and never understand what is going on inside them. How many men have ever been even in a brewery? But this does not seem to reduce their enjoyment of beer any more than a total ignorance of machinery can destroy their enjoyment of it. No man stops driving a car merely because he has no idea what makes the thing go. No man refuses beer because he does not know its contents.

And no one appreciates truly the labor, the thought and the skill which goes into the most ordinary articles of everyday use. Beer is drunk by the barrel today with hardly a thought for the brewer. The injustice of it all.

A FEW MEN

ONLY A FEW MEN really know anything about such processes as brewing (to mention the essentials first) or movie making or the making of munitions. If you were to extinguish a few thousands of key men, managers and scientists, throughout America today there would be no munitions industry tomorrow, no movies and, indeed, no beer. Everything depends on a few of the better minds at the top. The whole process of living has become so complicated that the ordinary man can contribute only a tiny fragment to it, and never see the other fragments contributed by his fellows.

In an earlier age, when men did nearly everything for themselves and every family was almost self-supporting, the worth of each unit in society could be appreciated. A man who was a good farmer, woodsman or hunter was respected by the community and his general service to all was appreciated. Now hardly anyone is appreciated and the contribution of each class of people is always undervalued.

NO APPRECIATION

WHAT APPRECIATION does the farmer get from the community at large, even though he is in the end the most essential member of it? What does the industrial worker care for the farmer, who is regarded only as the fellow who keeps the price of groceries too high? What appreciation has the farmer for the skilled mechanic who builds his tractor and truck? To the farmer he is the overpaid city worker who makes the price of machinery too high.

It is impossible in the vast swirl of industrialized society for the ordinary man to appreciate that every person, even the humblest, is making some contribution to the wealth of the whole—that is, nearly every person. The only worker who really contributes nothing, so far as I have been able to discover is the fellow who writes columns like this explaining the contributions of others. In a sane society he, of course, would be liquidated, but there appears to be no imminent danger of sanity just now.

GRATITUDE

THE ONLY THING that keeps us going at all is the specialized knowledge of a few men at the top and the special individual skill of the mass of workers at the bottom. If no one knew more than the average man, if no one knew more than you or I do, for instance, if everyone were as ignorant as us, society would return to the caves within a twelvemonth, for you and I, on our own resources, could not maintain a living standard above that of an aboriginal Indian; probably not as good a standard, for we would not even know how to make a canoe or a wigwam.

That is why we should go about in a perpetual state of reverence and gratitude; why we should never see a movie without thinking of the infinite cunning that has gone into it, or drink a glass of beer without giving thanks to the patient farmer who grew the hops, the expert brewer who processed them, the hard-pressed brewing company which unselfishly drew the dividends on the result.

GEMS OF THOUGHT—PLEASURE

"The most delicate, the most sensible of all pleasures, consists in promoting the pleasure of others."—Brydger.

"Pleasure is very seldom found where it is sought. Our brightest blazes of gladness are commonly kindled by unexpected sparks."—Samuel Johnson.

"False pleasure will be, is, chastened; it has no right to be at peace."—Mary Baker Eddy.

"The pursuit in which we cannot ask God's protection must be criminal: the pleasure for which we dare not thank Him cannot be innocent."—Richard Fuller.

"He who can at all times sacrifice pleasure to duty approaches sublimity."—Lavater.

The present is taken care of in the past when you are smart enough to provide for the future.

SIDE GLANCES

By Gelbraith

"My older brother wanted to enlist, but somebody had to stay home and support the family—wouldn't I hate to be in his shoes!"

TEETH IN PRICE LAW

Examples of how the enforcement division works are given in the Consumers' News, issued by the Consumer Branch of the War-time Prices and Trade Board:

Sugar check-up—Dominion sugar inspectors made their first appearance in London, Ont., restaurants recently. Several proprietors were warned to remember the rule that sugar must not be given to customers unless they ask for it.

Gasoline rationing—In the first prosecution of its kind since the introduction of gasoline rationing in Canada, two men were sent to jail for three months, and fined \$100 each, or in lieu of payment of this fine, an additional three months in jail. One of these men was found guilty of selling gasoline coupons, and the other of buying them.

Bicycles through the ceiling—The Majestic Bicycle and Supply Co. of Montreal pleaded guilty to a charge of selling bicycles this spring at prices higher than the basic period. A fine was imposed.

A new line in silk stockings—A business woman reported that silk stockings were being sold for \$2.25 which were previously priced at \$1.25. Investigation disclosed that this particular retailer had not sold this line of stockings at all during the basic period. But as the prevailing price was found to be \$1.25 he was advised to sell at this price, and agreed to do so.

The Wrong Price Tag—A Toronto housewife purchasing half a pound of processed cheese at a large grocery store was charged 19

cents instead of 17 cents. Investigation showed that through carelessness certain packages had had the wrong tags put on them. Refund was made and the clerk responsible reprimanded.

WAR—25 YEARS AGO TODAY—AUGUST 13, 1917—Enemy artillery fire increased over the Arras-Cambrai road and in the Neuport sector. Germans captured Pantzou on the Russian front. British government officially recognized Czechoslovakia as a nation.

ARMY M.P.'s
Army in this war hastened to change the character of the Military Police so the M.P.'s won't be considered the soldier's enemy, but his friend. In the last war, the proper conception of an M.P. was a big, rough, tough cop who would clout a soldier over the head and throw him in the brig if he didn't toe the straight and narrow. Idea now is to hand-pick recruits for the Military Police from regular line organizations, getting intelligent, high-type men. They are then indoctrinated with the principle that every soldier is a buddy who must be protected and kept out of trouble just as though the M.P. himself was on leave, in company with the men, instead of on duty to shove the rest of the army around. Hoped for result of this policy is to build a better "brother-in-arms" spirit, give soldiers and M.P.'s alike greater pride in their profession. Consequently, next time you see a disorderly soldier, watch the technique in handling him. Chances are the trouble-maker will be led away quietly till he gets over it.

Diet Facts about Lemons

THEY HELP 3 WAYS!

California Sunkist Lemons

GOOD FLAVOUR—GOOD FOR YOU

Have Them Every Day!

Here are three good nutritional reasons for having the juice of one Sunkist Lemon every day . . . in water, or as a flavour-help for foods and beverages:

1. One ounce per day per person of uncooked lemon juice is an excellent natural source of Vitamin C.
2. They aid digestion.
3. They promote normal alkalinity.

GREASE GONE IN A JIFFY!
SO MUCH CLEANER!

LAUDS VICTORIA'S RED CROSS SHARE

"Victoria's share in the \$9,000,000 campaign by the Red Cross Society was outstanding," said J. Noel Kelly of Toronto, publicity director of that organization, who was in Victoria Wednesday.

Mr. Kelly said the whole campaign had been successful. Starting in May the objective had been reached without difficulty and by the end of July had been exceeded by \$1,000,000.

Arriving here Wednesday morning by road from Nanaimo, Mr. Kelly left last midnight for Vancouver en route east. He will return to Toronto via Calgary and Regina, completing a swing around the Dominion that took him to every large centre.

While here Mr. Kelly, a former Vancouver newspaperman, con-

ferred with W. Morton Patterson, Victoria Red Cross president, and Frank Giolma, publicity representative, and other Red Cross officials here. While in Nanaimo he inspected the A.R.P. organization, a matter he will take up with W. Mainwaring, provincial A.R.P. chief in Vancouver.

Fractures Arm In Car Accident

Mrs. William Robertshaw is in St. Joseph's Hospital today suffering a fractured arm and bruises, the result of an auto collision at Grange and Burnside Wednesday afternoon at 2:15.

Riding in her husband's car north on Grange, she suffered these injuries when it turned over following a collision with a car driven west on Burnside by William Edward Stubbs, Shawnigan Lake. Mrs. Robertshaw was taken to St. Joseph's Hospital in a Saanich police car. Mr. Robertshaw suffered slight cuts and bruises

Shipyard Recommendations

7-day Week Workable, Needed; Should Be Left to Managers

The point of view of the management of the two Victoria shipyards was presented in separate briefs to the Richards Commission at its final hearings here Wednesday afternoon.

Although up to the present the suits of the seven-day week plan have been disappointing, V.M.D. believes the plan is not only workable but necessary from a production standpoint, H. S. Hammill, general manager of the firm, said.

N. A. Yarrow, managing director of Yarrow's Ltd., asked application of continuous production schedules in shipyards be left

to the discretion of the respective managers, who could operate plants to the maximum productive advantage with the available manpower, facilities and material.

MR. HAMMILL

Mr. Hammill said a survey of the three months' operation by V.M.D. was made from the viewpoint of increased production only, without reference to any increased cost.

"It is unfortunate that, since its inception," Mr. Hammill said, reading from his brief, "certain factors have impeded the completely successful operation of the seven-day week, particularly the uncertainty of its continuation which prevailed among all interested parties; but in spite of this there appears to be a weight of evidence indicating that, properly directed, the scheme is definitely capable of successful operation."

STEEL FABRICATION

Mr. Hammill said that since Jan. 1, 1942, the amount of steel fabricated by V.M.D. had increased by 142 per cent, while the amount of steel erected had increased by 105 per cent. During the same period increase of the manpower employed by the firm was only 61 per cent.

"This improvement is due to a number of causes as well as additional manpower. There have been additions to handling facilities, better organization, men have become more skilled and experienced; but I doubt if it could be said that it is in any way due to the introduction of the seven-day week, as I do not believe the seven-day week has had a fair trial," he said.

He said the increase of fabrication and erection of June over April when the seven-day week was effected had just kept step with the increase in plant strength. All the men now used on the seven-day week could be used on the six-day week and maintain the same production, he said.

Mr. Hammill estimated that of the total increase of 33.5 per cent in the number of man-days worked in June over April, only 14 per cent was due to Sunday work, while steel fabrication during the same period increased only 7 per cent.

EFFICIENCY DECREASE

An analysis of production figures showed that up to June 31 the men on duty on Sundays, in many instances, made similar accomplishments to those working on weekdays, he said, citing the cases of riveters. During July, however, the Sunday efficiency of the riveters dropped approximately 50 per cent.

"It would seem that inefficiency due to the uncertainty of the seven-day week is progressive and will undoubtedly increase until labor and the management can work together in full harmony," Mr. Hammill said.

He said an average of only 79 per cent of the men due for work on Sundays turned up from May 3 to July 12, while 97 per cent of the men attended work on weekdays.

"A difficulty has also arisen through key men in gangs taking Sundays off in addition to their recognized day," he said.

Inadequate transportation was another difficulty actuating against Sunday work, Mr. Hammill said.

NEED 325 MORE MEN

A minimum of 2,650 workmen (exclusive of foremen and administrative staffs) would be required for operation of V.M.D. plants seven days a week, he said. The firm at the present time has only 2,125 men available. He said he could not take on more unskilled men because there was a deficiency of skilled tradesmen and men capable of supervising gangs.

"The lack of adequate skilled direction may have a dangerous effect on the morale of the men, particularly in the case of men inexperienced in shipbuilding, who require continual supervision," he said.

V.M.D. lost 300 men during one month this spring, Mr. Hammill said, and the reason for leaving in the majority of cases was inability to find suitable accommodation for families of the workmen.

Mr. Hammill said delay in delivery of materials was a frequent cause of disturbance in the organization in V.M.D., but assured commissioners that never, when the management had been assured of the necessity of any equipment which would speed production, had it hesitated to purchase that equipment.

MAINTENANCE

"The question of maintenance of machine tools does not, I con-

sider, occasion any serious difficulty in the establishment of a seven-day week," he said.

Associations of V.M.D. with the trade unions, he said, had been cordial and V.M.D. had always endeavored to co-operate.

"The adoption of the seven-day week, while essential, should be conditional upon the following factors," Mr. Hammill said:

1. Seven-day week should not be introduced until individual yards had sufficient strength, both of skilled workmen and supervisory staff, to ensure smooth and efficient operation.

2. Each yard should be granted full powers to determine which trades may be usefully employed on the 21-shift week.

3. For Victoria, adequate and convenient housing accommodation must be provided.

4. Before the plan can be successful, complete agreement must be reached between the government, the trade unions and the shipyards.

MR. YARROW

He said Sunday should be utilized for maintenance, overhaul and repairs to machinery and equipment in order to obviate possibility of breakdowns at the height of working week.

He also suggested that a Sunday pick-up shift be brought in to advance any particular operation that was behind or slower than some other parts of the work.

"Bringing in, say 50 men on Sunday might readily save the time of 500 on Monday," he said, "and go far to keep the various shipyard operations in better balance."

ASK STANDARDIZATION

Mr. Yarrow also suggested that working hours and conditions in all establishments dealing directly or indirectly with shipbuilding be standardized.

"The program of national selective service should be speeded up to provide the necessary additional skilled labor, either from nonessential industries or from some new source, such as women workers," he said.

"From a national point of view there is nothing more urgently needed at the present time, either in military or civilian life, than an effective plan for maintaining and increasing the supply of labor in shipyards," he said.

Mr. Yarrow also asked a clear-cut policy with respect to the exemption of shipyard workers from military service, and said if this policy was co-ordinated with the national selective service program men required by the services could be at once replaced in the shipyards.

PRODUCTION SAME

Up to the present, the experience at Yarrow's has indicated that since the seven-day week plan was introduced there had been no appreciable increase in production, Mr. Yarrow said, but pointed out that his firm during the tryout was changing from production for the War-time Merchant Shipping Board to work for the Department of Munitions and Supply.

Because of this transition, he said, it was impossible to analyze and compare weekly production records of steel fabrication and erection and rivets driven.

Although he estimated an increase of personnel of one-sixth would be necessary for the seven-day week, Mr. Yarrow said his firm's personnel had increased only from 1,618 in May to 1,800 at the present and most of the increase had been absorbed in operational expansion.

He said the future aspects of getting more skilled and semi-skilled men were not promising.

Yarrow's has found it necessary to take men off weekday shifts so that they could work on Sunday, he said, and it was not always possible for other men to fill in on the day or days on which these men were off.

7 DAYS FOR 6 DAYS' WORK

"We are spreading six 1.30-hour days over seven days," he said; "in other words, we are taking seven days to do what can be done in six days."

He said frequently foremen had had to work seven days a week.

Urgent repair jobs, to which Yarrow's most highly skilled men often had to be diverted, had upset schedules, Mr. Yarrow said, and these disruptions were accentuated by the seven-day-week plan.

Speaking of the morale of the workmen, he said that higher taxation was making monetary returns to the shipyard workers less attractive and absenteeism was increasing, with no means of control or evidence of further improvement.

That fact that shipyard

workers have only three holidays a year while subcontractors and governmental establishments still enjoy the usual holidays, has had a disturbing effect on shipyard morale, he said, although so far morale of the men at Yarrow's was good and discipline satisfactory.

"In our opinion the continuation of the present plan might result in deterioration of morale," he said.

NO COMPENSATION

Men, especially riveters and machinists, objected to the seven-day week because they could see for themselves that it was not increasing production, he said, and they feel that they are being asked to do something which unnecessarily upsets their

existence, without securing compensating results to the country's war effort or themselves as individuals.

The fact that government establishments, other engineering shops in Victoria engaged in shipbuilding, and shipbuilders in other parts of Canada were not on seven-day operation was a disturbing factor, he said.

"As a result of the present attitude of the men," he said, "a Sunday atmosphere prevails on Sundays with resultant slowing down of work."

Moisture which might otherwise cause corrosion in a furnace system in summer will be carried away if all the furnace doors are left open.

Over 5,000 Attend Gala At Government House

ANNA LEE, lovely star of the Commandos film, signs autographs for Mrs. W. Pope and Mrs. V. Holmes of the Red Cross Corps. Left, Barbara Hackney as a charming Lady-of-the-1,000-pockets at the Red Cross fete. Below, Mrs. Todd finds customers for her candy in Miss Brenda Woodward, left, and Mrs. E. Woodward. (See other Pictures Page 11.)

Take a really worthwhile cause, spice it with a judicious sprinkling of movie stars, add a dash of piquancy in the shape of "games of chance," mix well with community spirit, garnish it with gay and unusual decorations, then serve it against the background of Government House. That seems to be the recipe for outstanding success, judging by the grand gala yesterday afternoon which drew a crowd of over 5,000 to Government House grounds and realize about \$8,500 for the Red Cross.

Even before the opening hour at 2, visitors began to converge on the gates, and until the last little boy had his drink of "pop" and the last bingo addict had satisfied the urge to gamble for "phony" money at 7, crowds thronged the various amusements and patronized the many attractive stalls.

As the Air Force band struck up the chords of the National Anthem at 2, His Honor the Lieutenant-Governor approached the grassy rostrum and Mr. Stewart Clark, over the loudspeaker, announced the formal opening ceremonies were about to begin. His Honor was accompanied by Mrs. Woodward, looking charming in a wisteria blue gown, with matching hat trimmed with cerise ribbons; Miss Anna Lee, in black crepe with a striking high-crowned hat of black and champagne striped fabric; Lady Hardwicke in a black gown patterned with cherries; Mrs. Chas. E. Wilson, the general convenor of the fete, all in white, and Mr. W. Morton Paterson, president of the Victoria branch of the Red Cross Society.

STARS SPEAK

After the Lieutenant-Governor had pronounced the affair open, congratulated the sponsors and wished the undertaking every success, each member of the official party added a brief word. Miss Anna Lee and Lady Hardwicke, on behalf of the company of "The Commandos Come at Dawn," expressed their appreciation of Victoria's hospitality and wished the fete every success. Lady Hardwicke urging everyone to "spend twice as much as you intended, and even go into debt, if necessary," to ensure the proceeds being worthy of the cause. Mrs. Wilson and Mr. Paterson both thanked all who had worked so indefatigably in the preparation of the affair.

The two movie stars then made a tour of all the booths, purchasing liberally, and also acceded to the request for hundreds of autographs. When, later in the afternoon Miss Lillian Gish appeared in her picturesque Norwegian costume, she explained that she had come right off location and apologized for being a trifle dishevelled and dusty "after being up since 5 this morning." She, too, was pursued by small boys and adult autograph hunters.

Still later more members of the film company arrived, and added their word of greeting over the loudspeaker. They included Rosemary de Camp, Arthur Margison, Ferdinand Munier, John Stockton, Frederick Paterson, Elsa Jensen, Greta Granstedt, Erville Alderson, and last, but by no means least, little Ann Carter, Lieutenant-Commander John Farrow and Paul Muni.

PRESENTATION MADE

At 6 o'clock the entire "Commando" group gathered on the

terrace where His Honor presented an address of thanks from the Red Cross, together with a handsome engraved cigarette case, to Lieut. Commander John Farrow, in the absence of Lester Cowan, the producer. Commander Farrow and Paul Muni both acknowledged the presentation with a brief word of thanks, and Mrs. Farrow (Maureen O'Sullivan) also voiced a brief greeting.

Little Ann Carter drew the prizes in the grand tombola, and Mrs. Woodward formally presented them to the fortunate winners. One of the awards was unscheduled. This was when Commander Farrow paid over to the Red Cross Society the sum of \$50 for the privilege of kissing his own wife, the lovely Maureen O'Sullivan.

GAY STALLS

Arranged round the lower lawn, the stalls vied with the flower beds in brilliance of color. Red, white and blue was the general theme, and gaily-dressed vendors were in attendance at many of the stalls and wandered about the grounds selling wares. One of the most popular booths, despite the warm afternoon, was the hot-dog stand, and long before the traditional tea hour, some 500 of the succulent delicacies had been consumed, small boys being especially satisfied customers, to judge by the many times they returned for more. Before the day was over 1,500 had been sold. The four refreshment booths, in charge of the Women's Canadian Club, the ice cream booth, and the flower and candy stalls, all did a rushing business, while the home cooking stall was readily denuded of its toothsome wares.

Vitamins in Onions

Onions are a good low-cost source of vitamin B and C. They also add bulk to the diet.

Mrs. Frances Foley Gannon, Director of New York City's Bureau of Consumer's Service, gives these tips on buying and preparing onions:

Choose those that are bright, clean and well-shaped. Dry skins are another indication of quality. See that the onion is hard, not flabby, and avoid any that have begun to sprout, or in which the seed stem has developed. Misshapen onions may be a poor buy because of the waste involved in preparation.

STUFFED ONIONS

Five large, mild onions, 3 tablespoons butter or other fat, 1½ cup chopped celery, 2 tablespoons chopped parsley, 2 cups bread crumbs, 1 teaspoon salt.

Skin the onion, cut in half crosswise, simmer in salted water until almost tender, and drain. Remove the centres without disturbing the outer layers and chop fine. Melt two tablespoons of the fat in a skillet, add the chopped onion, celery, and parsley, and cook for a few minutes. Push the vegetables to one side, melt the

white elephant stall was besieged, and among the treasures parted with by some fond owner was a handsome old chair, upholstered in red satin, which had belonged to Sir Wilfrid Laurier. At the gift shop, bags of every description, bric-a-brac, and many novelties found ready purchasers.

Reflection of the times was the interest in the baby stall, where young mothers, accompanied by self-conscious but proud young papas, priced woolies and "diddies" and baby baskets, and all the other things which go with the first offspring.

Fortune-telling must be a lucrative profession, judging by the long lines of would-be clients who waited patiently to peep into the future either through the medium of the teacups, cards or crystal. This feature was housed in the attractive summer house.

FUNWAY POPULAR

The funway arranged on the upper lawn was crowded throughout the afternoon. It was amusing to see well-known pillars of the church casting their inhibitions aside and tossing the coin, playing the horses and indulging in other nefarious forms of gambling.

The bingo tables, too, did a rushing business, kibitzers lining the sidelines, and as the stentorian shout of bingo by the service club "barkers" announced the winning of more money money by the lucky winner the resultant empty places were speedily filled. As a reminder of sterner things the stand for the sale of War Savings stamps and certificates was kept busy.

Music by the air force band and the navy band added much to the pleasure of the thousands of guests throughout the afternoon.

remaining fat and add to it the bread crumbs and salt, and then combine with the vegetables. Fill the onion shells with the stuffing, put in a baking dish, cover, and bake in a moderate oven for about 30 minutes, or until the onions are tender. Remove the cover from the baking dish during the last of the cooking so that the onions will brown on top.

The monthly meeting of the Centennial Auxiliary of W.M.S. was held in the church parlors Monday, with the president, Mrs. Wilson, in the chair. The devotional period was conducted by Mesdames McLehman, Elder and MacKenzie. Rev. C. Tate of Union Church, Montreal, gave an informal talk on the work done by the United Church among the colored people of that city. He traced the progress made from 1907, when the mission was opened under the supervision of the Congregational Church, to the self-supporting Union Church, today in the west end of Montreal.

A strong social service department in this church brings the church into the homes of the people. The Y.P.S., through the production of a play, donated \$5,000 towards the Milk for Britain Fund, this spring.

Social and Personal

Miss Dawn Hope who has been the guest of Miss Verna Taylor, Strangeholme, has returned to her home at Duncan.

Petty Officer and Mrs. Sidney T. Taylor and young son, Norman, have returned to Langford and are occupying Mrs. H. Grieve's former home on the Island Highway.

Mr. and Mrs. W. Park Chalmers will leave Sunday for Winnipeg to be the guests of their daughter and son-in-law, Mr. and Mrs. Meadow, for the next few weeks.

Miss Josephine Wilson of Vancouver, is over to attend the wedding Saturday evening, has arrived in the city and is the house guest of Mrs. F. M. Bryant, Linden Avenue.

Miss Jacqueline Banks of Chapman Camp, B.C., who is to be a bridesmaid for Miss Mary Louise Bryant Saturday evening, has arrived in the city and is the house guest of Mrs. F. M. Bryant, Linden Avenue.

Miss Jocelyn Brook has returned to her home in Vancouver after a month's holiday on Vancouver Island, of which she spent a week with her mother, Mrs. Freer Brock, who is a guest at the Oak Bay Beach Hotel.

Miss Kathleen Isabel Shute, daughter of Mr. and Mrs. J. F. Shute, 608 Harbinger Avenue, is among the list of latest recruits to the R.C.A.F. (Women's Division). Miss Shute has left for the east to take her training and Mrs. Shute accompanied her daughter as far as Vancouver. Miss Audrey Elaine Murray is also among the Victoria girls who have joined up. She is the daughter of Mrs. J. M. McKenzie, Arcadia Street.

Mrs. Frederic Watriss, daughter of Sir Frederick and Lady Williams-Taylor of Montreal and Nassau, B.W.I., was married to Mr. Henry Pirrepoint Perry in New York last week. Supreme Court Justice Ferdinand Pecora officiated. It is the bride's third marriage. After visiting Sir Frederick and Lady Williams-Taylor in Murray Bay, Que., where they are spending the summer month, Mr. and Mrs. Perry will be joined in New York by Mr. and Mrs. John Simms Kelly of Havana. Mrs. Kelly is the former Brenda Diana Duff Frazier, Mrs. Perry's daughter by her first marriage. When they return to Cuba Mr. and Mrs. Perry will accompany them.

Miss Gladys Grace Fouracre, whose marriage to Capt. Robert Johnston, R.C.A.F., will take place later this month, was guest of honor at a miscellaneous shower given by Mrs. D. D. Moses, 2637 Avebury Avenue, on Tuesday evening. The bride-to-be and her mother, Mrs. A. Fouracre, were presented with corsage bouquets of white gladioli tips and pink carnations. The gifts were arranged under and around a blue parasol, and the guest of honor received them sitting under a blue trellis with pink roses trailing over it. Pink and white gladioli decorated the rooms and a buffet supper was served. The invited guests were Mesdames D. Barr, A. Hampton, H. Etheridge, Fulthorpe, A. Hague, F. Shaver, A. J. Fouracre, J. Cudmore, Goddard, Hogan, Everrood, Misses D. Fox, Crowe and Loree Moses.

Mr. Hal A. Rogers of Toronto, founder of the Association of Kinsmen Clubs of Canada, and Mrs. Rogers, together with several prominent Kinsmen members from other cities, were guests of the Victoria Kinsmen Club members at the home of Dr. and Mrs. Arthur Poyntz, 2700 Burdick Avenue, Uplands, recently. Mrs. Poyntz was assisted by Mrs. Hal Bourne, wife of the local Kinsmen Club president. Others attending the delightful event were: Mr. and Mrs. James Norris and Mrs. E. M. Medlen, Ottawa; Mr. and Mrs. Roger Roscoe and Surgeon-Lieut. J. Hitchins, Edmonton; Mr. and Mrs. H. R. Larson, Mr. Al Hulme, Mr. Lou Schroeder, Lieut. O. K. McClocklin, Harold Brown, Winnipeg; Walter Dennis, Kincaid, Ont.; Harold F. French, Dresden, Ont.; Gene Hartnett, Kingston, Ont.; Mr. R. Jones, St. John, N.B. The guests are spending a few days in Victoria after attending the Kinsmen national convention in Vancouver last week before returning to their respective homes. Victoria Kinsmen members present included Mr. and Mrs. Hal Bourne, Messrs. Geo. Fawcett, Wm. Dillabough, Jack Price, J. Phillip, Bert Bruce, Hal Winterburn, Walter Miles, Maurice O'Connor, Frank Fraser, Herb Saviston, Art Jackson and Len Acres.

Mr. Hal A. Rogers of Toronto, founder of the Association of Kinsmen Clubs of Canada, and Mrs. Rogers, together with several prominent Kinsmen members from other cities, were guests of the Victoria Kinsmen Club members at the home of Dr. and Mrs. Arthur Poyntz, 2700 Burdick Avenue, Uplands, recently.

Red Cross Notes

CORDOVA BAY

The last in the current series of first aid lectures being given by Mr. Herbert Stokes in Cordova Bay will be delivered on Thursday evening at 8 o'clock in the pavilion of the Little Arctic.

Sponsored by the local Red Cross unit, a variety concert will be held in McMorran's pavilion, Friday evening at 8 o'clock. Mrs. C. Green, Miss Florence Clough and pupils of Victoria, with local and visiting artists will give the program. Proceeds for parcels for prisoners of war.

In Scotland wheat has yielded as high as 2,650 pounds to the acre.

Weddings

HINCKS-D'ARCY

A quiet wedding was solemnized Wednesday at noon by Rt. Rev. H. E. Sexton, Bishop of Columbia, in his private chapel, between Eileen, only daughter of the late Rev. and Mrs. L. J. M. d'Arcy, and Mr. Drennan Hincks, elder and only surviving son of Mr. and Mrs. Reginald Hincks, Ten Mile Point. The bride and groom left immediately after the ceremony for Ottawa.

The R.C.C.C. Women's Auxiliary will meet at the home of Mrs. R. G. Humphreys, 616 Greenville Street, on Friday at 2.30 p.m.

WOMEN OF RUSSIA have proven that a woman can take her place in the pilot house of a ship, but few, if any, have proven as versatile as the pilot as Capt. Ollie Johnston, Canada's only woman skipper and master mariner. Since joining the tug Salvage Prince 16 years ago, Capt. Ollie has been fireman, deckhand, wheelman, mate, cook and skipper. In her spare time she takes her turn at washing the decks and shining brasswork. As she sat in the trim little cabin, Capt. Ollie was preparing to begin one of the toughest assignments of her career. With Capt. Pike, owner of the salvage company, she's going to raise the 1,900-ton freighter Henry C. Daryaw from the bottom of the St. Lawrence river. The collier sank last fall,

Holiday for Health A Real Necessity

By E. L. FORBES

Summer is on the wane! September with all the bright colors of autumn just over the horizon! Take a few days' vacation right now, while the sun is still warm and the days clear and bright. Store up energy for the weeks and months of hard work to come. You'll never regret it.

This business of "where to go" for a short vacation is really very easily solved for us, for we have the whole of Vancouver Island at our front door. There are so many holiday spots within easy reach, all run with a thought to meeting our wartime budget plans. In fact, it is truly amazing how reasonable some of the rates are and how much you get in return. Choose any place you wish and I'll wager you'll be so pleased you'll wonder why you have never tried that sort of holiday before.

I'm really speaking from experience now, for I've just come back from the kind of holiday I've been urging you to take all this summer and I can assure you it's all I've said in these columns and much more. In fact, I look so well a friend stopped me on the street yesterday and said, "Where have you been doing? What have you been doing? You look 10 years younger!" Imagine that—10 years in two weeks. It's a grand and glorious feeling!

Things to Remember:
The MALAHAT LOOKOUT is again open to the public. The new road to the summit goes right by its door. Old friends will remember the beautiful view and the delicious afternoon teas served here.
Splendid addition to CEDAR CABIN CAMP at Lake Cowichan.

There are many natural beauty spots on Vancouver Island.

Newton, where the park is situated. John Dean Park is at its best in the autumn, when the magnificence and variety of flora and fauna is seen to best advantage. Close by is the Dominion Experimental Farm.

All the natural parks mentioned above have been greatly improved in recent years by the Provincial Forest Service. No pains have been spared to make

them attractive, and so skillfully has the work been done and with so keen a sense of fitness, the natural beauties have in no way been impaired but actually enhanced.

It is quite usual for visitors to camp for several days in the ideal surroundings of the natural parks. Little Qualicum Falls, Stamp Falls and Elk Falls are all admirably adapted.

New War Melodrama

By FOSTER BARCLAY

LONDON — From the German occupation of France stems the play, "Salt of the Earth," an entertaining melodrama greeted with mixed feelings by the critics and applauded by the public.

Written by Michael Egan, the piece tells the story of puzzled France of the days immediately preceding the fall of Paris, the sullen France that saw Vichy's concession to the Nazis and the rebellious France that has realized what Nazi domination means. The experts minced no words in paning or praising it. To some it was "crude and disappointing," to others "sincere, moving and dramatic." But the first-nighters appeared to like it.

The play, set in a Normandy farmhouse, opens with Petain's radio announcement of the Armistice and ends late in 1941 just after a "ghost" army has blown up a local bridge. Action develops after a humble French family gives sanctuary to a Royal Air Force pilot shot down by the Germans. Instantly the whole apparatus of Nazi brutality is concentrated on the farm. Two fifth columnists threaten to expose the airman to authorities.

Though a son is caught and beaten up by the Gestapo and a daughter threatened, the peasant family stands firm. Another moving scene concerns a German soldier who learns his wife and daughter have been killed in Germany by a British bomb. Touches of rough humor, however, relieve the gloom.

NEW DANCER

It has come to light in London's clubby West End that tall and shapely Anne Goossens, who is dancing in the "Land of Smiles," a current hit, is the first member of her famous musical family to come before the public from the "other side of the footlights."

Her father, Eugene Goossens, used to conduct the dancers of the Diaghileff Russian Ballet, while her grandfather, Eugene Goossens sen., conducted the Carl Rosa opera for many years. Two aunts are noted harpists and an uncle, Leon Goossens, is a well-known oboe player.

Anne had hoped to excel as an actress, but chance led her to the stage as a hooper. She studied

HYLTON'S DECORATION

Jack Hylton, well-known British theatrical producer and former dance band leader, celebrated his 50th birthday by wearing the red ribbon of the Legion of Honor in his buttonhole. First public appearance of the noted musician was in the bar parlor of his father's public-house, the Roundcroft Tavern at Bolton, when he was 12. He played the piano to "induce people to drink more beer" and didn't receive remuneration either from the customers or the landlord.

An 18-year-old Cardiff actress, Yvonne Owen, has made her West End debut in a major role as the leading lady in "Rebecca," which has opened in London after a long and successful run in the provinces. The actress, who has been understudying Irmgard Spolansky in the part of the little girl Babette in "Watch on the Rhine," replaces Jill Furse, forced to retire from the cast because of illness.

ARMY CASUALTIES

OTTAWA (CP)—The Canadian (Active) Army, in its latest casualty list, reports deaths of eight men—three of them of wounds and one of accidental wounds. The new list raises to 753 the total number of army men officially reported dead and missing since the outbreak of hostilities three years ago.

OVERSEAS

Died of wounds—Sgt. J. C. Cronin, Saint John; Gnr. F. T. Johnson, Grand Falls, N.B.; L. Bdr. John MacDonald, Clarendon, Alta.

Died of wounds (accident)—Tpr. R. A. Brooks, Emerson, Man. Died—Lieut. C. M. Galbraith, Lieut. C. E. Rasmussen, Winnipeg; Pte. A. B. McConnell, County Tyrone, Ireland; Sgt. F. H. Jones, Winnipeg; Gnr. T. F. Brown, West Hill, Ont.

Dangerously wounded (accident)—Gnr. R. C. Bawthineimer, Armstrong, B.C.
Wounded—Gnr. R. M. Hooper,

SHE: Not too sweet. That's why I like Canada Dry.

LABOR MAN WINS

LONDON (CP)—W. H. Guy, Labor, was elected to the House of Commons seat left vacant by the death of D. M. Adams, also Labor.

In voting, Wednesday in the South Poplar division of London, Mr. Guy polled 3,375 votes against 541 for Rev. Patrick Figgis, "Christian Socialist."

In the 1935 general election Adams polled 18,715 votes against 6,862 for Mrs. D. Spearman, Conservative.

After his election was announced Mr. Guy said: "I won because I fought the election 100 per cent behind the government."

A.R.P. ACTIVITIES

District No. 5, Saanich—First aid classes will begin Sept. 1 at 7.45. Place of meeting will be announced later. All wishing to take this course should get in touch with their post-wardens at once. Only registered A.R.P.

Use Bacteriophage To Cure Dysentery

Bacteriophage, the germ-eater, is conquering bacillary dysentery in Alexandria, Egypt, Dr. Arthur Compton, director and pathologist-in-chief of the laboratory service, Alexandria municipality, reports in the latest issue of the British Medical Journal.

In Alexandria, he reports, patients with bacillary dysentery died at the rate of 25 out of every 100 in 1928. Since 1938 only about five out of every 100 patients with this disease have died. In Cairo and the rest of Egypt the situation has not been so favorable. Case mortality rates for Cairo have varied between a maximum of over 60 per cent in 1928 to a minimum of 25 per cent in 1938.

The difference, in Dr. Compton's opinion, is due to bacteriophage, which physicians of Alexandria now give regularly to patients showing the first signs of dysentery. Since 1930, moreover, the municipal public service in Alexandria has "budgeted annually for commercial bacteriophages for the specific treatment of bacillary dysentery and like conditions in the municipal hospitals and children's clinics."

"Thus the phage therapy (treatment) has been employed in Alexandria on an important scale for at least 12 years," Dr. Compton reports. "In Cairo, phage has not been used to any appreciable extent until recent years and the rest of Egypt may be considered as practically not having known phage therapy at all."

personnel are eligible to take this course, and must agree to take an active part in first aid work at the different points.

Facilitate Pay Reductions

Tables to Simplify Income Tax Payments

OTTAWA (CP)—Tables are going to employers across Canada this week-end to facilitate income tax reductions from their employees' pay envelopes beginning the first payday in September, Revenue Minister Gibson announced today at a press conference.

There will be three sets of tables—one each for employees paid by the day, by the week and by the month. Employers who pay every two weeks will double the weekly table and those who pay semi-monthly will halve the monthly table.

Deductions will be on the basis of deducting an equal amount from each pay for 12 months to pay 90 per cent of the employee's income tax based on his income in the calendar year 1942.

The deductions will be reduced by the defence tax an employee has paid between January and August this year. Deductions also will be reduced up to 90 per cent of the refundable or savings portion of the tax by savings the taxpayer makes directly by payment of life insurance premiums, superannuation payments, principal payments on mortgages and trades union payments other than dues. No savings in excess of the refundable tax will be counted.

LEAVES MARGIN

Mr. Gibson explained that the reason the deductions are based on 90 per cent instead of the full income tax is that the taxpayer might have unforeseen contributions to charitable organizations or have doctor's bills or other expenditures which would entitle him to a reduction in his total tax. The 10 per cent margin would cover many of these.

The employee must file with his employer before Sept. 1 a form known as T.D. 1, setting out whether he is married, his dependents and the amount of his savings for 1942 which qualify to be set against the refundable tax.

These forms will be at the post offices and revenue tax offices within the next few days. Offices within one day's mail.

distance from Ottawa should have them available tomorrow.

It will be to the taxpayer's advantage to get this form in on time, the minister said, because if it is not filed with the employer, deductions from his pay will be on the basis that the employee is unmarried and is putting aside no savings. Persons who are single without dependents and are putting aside no

savings are the only class who need not file these returns.

A married man whose wife is in receipt of less than \$660, or over \$660 when these receipts are from wages and salary will come under the married status in the deductions. If, however, the wife receives more than \$660 from investments or other payments, not salary or wages, then the husband will be classed as single for tax purposes. In either case the wife will put in her own tax return if more than \$660, and be classed as single status.

LISTS DEPENDANTS

A taxpayer may claim as dependents children, grandchildren, brothers or sisters under 18 years of age and over that age if men-

tally or physically infirm. If the dependents are attending an educational institution they qualify as dependents up to 21 years. Parents or grandparents with mental or physical infirmities also qualify as dependents.

An unmarried person who is maintaining a domestic establishment and supports a dependent therein qualifies for married status. The same applies to a clergyman who maintains a domestic establishment and has a full time housekeeper or servant.

JAP TROOPS MOVE

CHUNGKING (AP)—An army spokesman said today an intelligence report has been received saying Japanese transports carrying more than 20,000 troops were sighted in the Gulf of Tonkin on Aug. 7.

He said there was no indication, however, where they came from or where they were going.

Southernmost China, Thailand and French Indo-China lie from north to south around the coast of the Gulf of Tonkin. Haiphong, Indo-China port on the Gulf of Tonkin, was bombed last Sunday by U.S. planes based in China.

If the Japanese transports were southbound, as would be reasonable, they might be taking reinforcements into Thailand or Japanese bases in French Indo-China for possible new offensives.

Legion Branch Votes \$850 Surgical Unit

A proposal that the three major branches of the Canadian Legion in this area furnish a mobile surgical unit for the Victoria Medical Association for the duration of the war was approved at a general meeting of the Pro Patria branch Tuesday, \$850 being voted towards its cost.

The meeting, under the chairmanship of Joseph Fox, president, instructed the executive to ascertain the reaction of the Dominion government to the request of the recent Legion Dominion convention that all pensioners not permanently employed and those unable to work be included within the scope of P.C. 8253 covering the matter of cost-of-living bonus to certain wage earners.

The desperate situation in Russia was discussed and while deep sympathy was felt it was considered little could be done in a practical way. As a token of sympathy and admiration the branch voted the sum of \$250 to the Canadian Red Cross Society to be earmarked specifically for Russian relief.

In southern Asia, perhaps heading toward Burma and the Indian border.

Snidor Electric Record Player

16⁹⁵

This inexpensive, attractive Record Player takes all types and sizes of records. Equipped with a permanent medium-tone needle, it is welcomed at home or at camp.

—Records, Fourth Floor at THE BAY

Send your children back to school smartly and serviceably dressed by choosing these "fabric primers"... the A B C's of comfort and style... durable, pretty, inexpensive. You'll like the way they make up so well you'll want several yards for yourself, too.

54-inch Wool Crepe Washable 54-inch Wool Broadcrepe

70% WOOL AND 30% RAYON 1⁴⁹ YARD

A popular weave for this season and next... preferred because of its washable and serviceable qualities and because it's easy to tailor and woven to hold its shape. A good color selection too in the economical 54-inch width.

Pure Black Wool Serge 54 inches wide, yard 1.00

Run up a skirt, jumper or dress for your little girl or a pair of shorts for the young boy. Long wearing and durable.

English Rayon Crepes 36 inches wide, yard 78^c

Whether it is for the young one going back to school or for yourself, you'll find these plain rayon crepes suitable... lovely fabrics that you'll want for afternoon dresses.

Striped, Check Suiting Woollens

54 inches wide, yard 2.49

You'll love the way they cut and sew... and make up into the season's smartest outfits. They wear well, too, and you'll find them ideal for the youngster, as well as yourself.

—Silks and Woollens, Street Floor at THE BAY

All-wool Faille and Wool Tweeds 36 inches wide, yard 98^c

For back-to-school tops you'll find many lovely all-wool Failles and some fancy check woollens with a small percentage of cotton. Lovely shades for early fall in the group.

Spun Rayon Feather Flannel 38 inches wide, yard 68^c

A fabric that molds flatteringly soft to the figure! You'll find it most practical for everyday wear... many excellent colors, too.

Washable Spun Rayon 36 inches wide, yard 58^c

Plaids... stripes... checks... all smart patterns that will make up beautifully. Also Celanese Dress Crepes in rich fall shades.

Fun and Philanthropy at Government House Gala

H. Morton Paterson, chairman of the Victoria branch of the Red Cross, speaks while, left to right, Mrs. Chas. E. Wilson, Mrs. W. C. Woodward, Lady Hardwicke, Miss Anna Lee and His Honor the Lieutenant-Governor look on.

One corner of the huge crowd, estimated at 5,000, which thronged the grounds of Government House Wednesday afternoon. In the background is the home-cooking stall with its dimity frills, chef, and wedding cake decoration.

Mrs. W. W. Findlay, one of the pretty vendors from the Mexican booth, sells watermelon to Mrs. Gordon Bowes and Miss Kythe Mackenzie.

Centre, Mrs. B. Cotter and her son, Tel. George Cotter, R.C.N.V.R., chat with, left to right, Elizabeth Harding, Miss Sally Stewart (Winnipeg), Mr. Francis W. Bird (Pasadena, Cal.), and Miss Dorothy Harding.

Mrs. E. W. Moir and her two kiddies, Philip and Sylvia, rest on the lawn to enjoy ice cream, after a round of the stalls.

Youngsters obviously enjoying some of the 1,500 hot dogs "and trimmings" sold under the direction of Miss Ruth Maclean and her white-capped helpers.

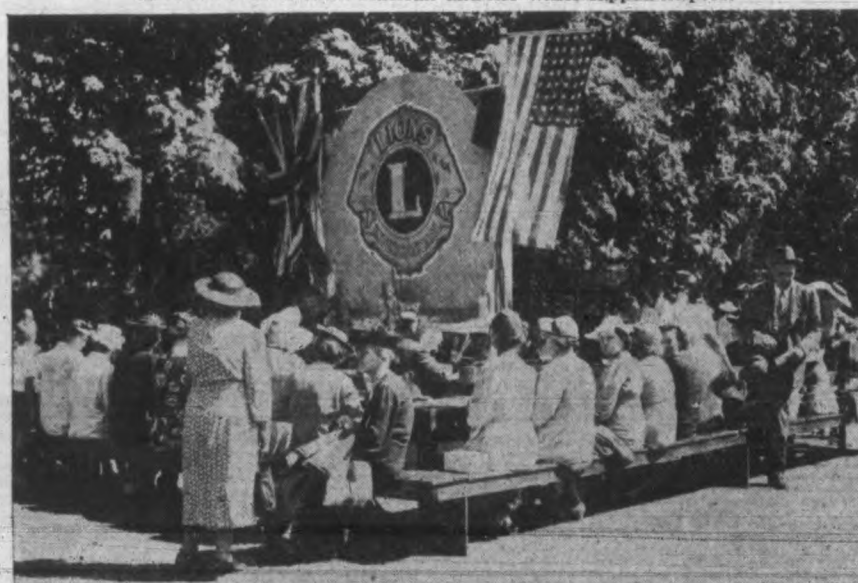

Petty Officers Jack Cuthbert and S. Sutherland admiring the posies and also the seller, Miss Daphne Nunns.

Miss Ann Ridewood selling cigarettes. Left to right, Mrs. W. B. Holms, Master Richard Roy, Mrs. J. R. Roy, Miss Ridewood and Miss "Fifi" Woodward.

Onlookers watch with interest while His Honor the Lieutenant-Governor tries his hand at "tossing the coin"—one of the Funway games.

Detective Henry Jarvis, right, discreetly turns his back on the gambling at the Bingo table—as he gets up after winning a handful of phoney money.

Left to right, Betty Thatcher, Marianne Wingate and Connie Sullivan, were a pretty trio of saleswomen.

This gay Neapolitan cart with its colorful balloon barrage was popular with the young folks. Miss Kathleen Johnson, vendor, stands at its back.

Sports Mirror

By PETE SALLAWAY

DOUG PEDEN likes playing professional baseball. The well-known Victoria athlete, who turned to baseball in a serious way for the first time this season, has been turning in a sparkling performance for the Hutchinson Pirates in the Western Association. It is a farm club of the Pittsburgh Pirates of the National League.

Peden opened the season in the outfield but was soon moved into first base where he has been playing regularly. Looking over the box scores for three games we notice where Peden handled 32 chances without an error. Doug, former six-day bike racing and basketball star, boasts the splendid batting average of .410 and, according to his dad, William Peden, has boosted that several points in recent games. Last available averages show Peden has played in 84 games, been at bat 316 times and crashed out 98 hits, including 14 doubles, nine triples and five home runs. He has knocked in 54 runs, scored 46 himself and stolen two bases. Not a bad record for a fellow who did not take the game in a serious manner until well into his twenties.

Writing from Halifax where he is now stationed with the armed services Roy Okell, popular Victoria soccer and softball player, tells of seeing Babe Ruth in action during a guest appearance on the opening of a new recreation field. Roy tells us the Babe couldn't hit a thing at the plate but gave the spectators a real treat by batting out flys to hundreds of youngsters and autographing bats and balls for all. Since he left for the east Ruth is the second outstanding sport personality Okell has met up with. While traveling on the train the Victoria Athlete chatted for 15 minutes with Jim Braddock, former world's heavyweight boxing champion, who was in Canada to act as referee in a wrestling match.

Canadian Sport Snapshots

Bombers May Use Fritz

By SCOTT YOUNG

TORONTO (CP)—It isn't impossible that P.O. Bob Fritz will play again with Winnipeg Blue Bombers, the club he plunged and coached to the Canadian rugby football championship in 1934 and western crown in 1935 and 1937. The big backfielder has been transferred to Rivers, Man., by the R.C.A.F., and Rivers is close enough to Winnipeg for Fritz to get in on the odd workout or week-end game.

When Robert first joined the air force rumor said he would wind up in Lachine, Que. . . . Whatever his autumn assignment, it'll probably include some football. . . . Either Winnipeg or Montreal (or any other club) could use him.

There may be more truth than wishful thinking in reports that Camp Borden, Ont., will have one of the strongest service football teams this fall. . . . A Camp Borden club could draw on both army and air force talent, and that's plenty. . . . Here's a footnote on a great football player: Red Storey, the former Toronto Argos, scored four goals and had two assists for Lachine in the Quebec Senior Lacrosse League a few days ago.

CIVILIAN FOOTBALL

J. P. (Toronto Telegram) Fitzgerald, on civilian football teams: "It is modestly suggested for their own protection that no player be permitted to indulge in football unless he can produce a certificate from the military authorities that he is not fit for the fighting services or is otherwise excused for good and proper reasons."

Last item of business cleaned up by Chicago Black Hawks' Bill Carse before reporting for active duty with an Edmonton reconnaissance unit was to win the Lake Waskesiu golf championship at Prince Albert national park. . . . Athletes from service units stationed in Ontario will meet at Toronto Varsity stadium Saturday for the Ontario military track and field championships. . . . Among the

We still can't figure this play-off business in amateur sport. Take the local lacrosse situation for instance. The league schedule has been completed with three clubs taking part. Now the playoffs are slated to open with the same three teams participating. The first playoff will be three out of five games and the final series four out of seven. The poor gullible public.

Our scouts tell us the dope is for the Services to defeat the Bays-Douglas Tire in the sudden-death game for the playoff bye. They claim Oakland will then eliminate the Bays-Tiremen in the preliminary series and the Services will take Oakland in the final. Of course that is just the opinion of a few of the so-called experts. But we would say the odds favor the Services to wind up with the championship with all due respect to the opinions of Mr. Menzies and Mr. McInnes, managers of the Bays and Oakland, respectively.

Professional football players in the United States are going to feel the law of supply and demand this season. They're going to be better paid, according to Fred Mandel. "The war has made players scarce," says the owner of the Detroit Lions. "When we won the title in 1935, not a backfield man on the club got more than \$200 per game, and most of them were veterans. This year the lowest rookie is apt to get that much."

Babe Pinell points out that more baseball pitchers are starting to throw a knuckle ball. "I mean pitchers who never threw it before," explains the National League umpire. "Max Lanier of the St. Louis Cardinals is one. And he really throws a fast ball, too—one of the fastest I've seen. It seems to me a pitcher figures he hasn't got enough stuff even with a good fast ball, curve and change of pace. And maybe he's right."

competitors will be Pte. Larry O'Connor of Toronto and Cpl. B. B. Cheesman of Cardston, Alta. . . . O'Connor is one of the world's greatest hurdlers, Canadian champion and former Olympic representative. . . . Cheesman is a former Alberta discus champ and Canadian shotput titleholder.

All-Star, Word Jacobs Fears

NEW YORK (AP)—Don't call that three-ring fight circus at the garden tonight an "all-star" affair if you want to stay on good terms with Mike Jacobs. . . . Mike still remembers that famous "tournament of champions," when he didn't exactly lose his shirt but lost enough to pay for a few dozen good ones, with collars, ties and cuff links. . . . Another war casualty is the Foxcatcher National Cup Steeplechase, American counterpart of England's Grand National. . . .

Ethel Hill's War Knight, the two-year-old that has been getting rave notices around Agua Caliente, is heading east to run in the Washington Park and Belmont Futurities. . . . The story has been going around for a couple of weeks that Mike Jacobs had reached some sort of an agreement with the army for a Louis-Corn flight, but when it finally busted into the papers Wednesday, Mike's only comment was "I hope it's true."

OTT SPEAKS

Mel Ott—"So there'll be no possibility of doubt, I say right now that any of my pitchers who hit a man and costs me \$200 will be fined \$250 by me."

Frank Frisch, whose opinion of umpires isn't complimentary, was popping off to Bill Klem one day, arguing that he could do the job a lot better than some of the

Bays, Services Play for Bye

Bays-Douglas Tire and United Services will fight it out for all that tonight's lacrosse game is worth, and it is plenty, when they meet at the Sports Centre. It decides who will get the bye in the semi-finals leading to the Little and Taylor Trophy, city championship silverware.

The two teams are tied for first place. Services missing their chance to go out in front and clinch the bye when they blew a six-goal lead Tuesday night and lost to Oakland, 20 to 17, in overtime.

Ted Menzies and Gus Munro, Bays-Douglas Tire mentors, think their boys can give a repeat performance this evening. Services will be the same team that lost to Oaks, according to word from their camp, but they won't take any chances with Bays. Norm Barton, their manager, says the word "win" is written in his book and if his team has a substantial lead in the last quarter there will be no Bay rally.

Tonight's special attraction will be something never attempted before in Victoria lacrosse. In the preliminary at 7 an all-girls' team will play Senators, undefeated midge team. The main game is slated for 8:30.

Bays-Douglas Tire team will be selected from Long, T. McKeachie, Moody, McFadden, Cullin, Manson, Ball, Nicol, Anderson, Ferguson, Stevens, A. Ovcharick, C. Ovcharick, Barr, Bryant, Travis and Robbins.

Spencers in Second Win Over Air Force

Spencers seem to be only team able to do it and they did it again, Wednesday. Meaning the department store cricket team, behind the batting of Petch and bowling of Harper, beat the R.A.F. team, 91 to 50.

Petch scored 25 runs before being bowled out, and this, with 15 by Griffin and Fletcher, and a 13 by Pritchard, was enough to win the game easily. Harper captured six wickets for only 29 runs to hold the air force batters in check.

Navy and Barons In Important Game

At Athletic Park tonight Royal Canadian Navy and Barons will pick up where they left off, Tuesday, in their city softball championship series. Barons lead the best of three of five series, two games to one, but after Navy's impressive 8 to 1 triumph in the third game of the series most fans think anything can happen.

If Barons win tonight the series is all over. If Navy wins there will be another game to decide the winner. Tonight's game is scheduled for 6:45.

major league "Blind Toms." . . . "I'll show you," Frank howled, and he waved his arm in a circle and roared, "Y-r-r-r ow-w-it." "I could do that all day," he added. . . . Klem just grinned. . . . "No you couldn't," he replied. "Suppose the runner was safe?"

Robinson Winner

Hair on edge, Ray Robinson is black fury as he rips into lightweight champion Sammy Angott to win 33rd straight professional victory in 10-round, non-title bout.

Subway World Series?

New York Yankees and Brooklyn Dodgers appear determined to save themselves and the baseball fans a lot of travel by keeping the 1942 world series within range of a five-cent subway ride. Both teams won again Wednesday, which is hardly surprising in itself, but the secret of their continued success cropped out in the widely divergent methods they employed to accomplish the same result.

Boston Red Sox and Philadelphia Phils discovered what many others already knew about the Yankees and the Dodgers—that is, if they can't beat you one way, they'll beat you another.

At Ebbets Field, the Dodgers went to bat in the ninth inning of a scoreless pitching duel between their ace, Lefty Larry French, and Rube Melton of the Phils. They calmly loaded the bases on two singles and a walk and sent dangerous Dolph Camilli to the plate.

Camilli, however, didn't lay a bat on the ball. He merely waited a walk which forced the winning run across, giving the Dodgers the verdict 1 to 0. Meanwhile, over in the Bronx, the Yankees went to bat against the Red Sox with the score tied in the last half of the ninth. They also loaded the bases in the ninth and brought up Charlie (King Kong) Keller.

At Hollywood, Bill Thomas yielded 10 hits but defeated his former employers, San Diego Padres, 4 to 3. It was Thomas' sixth straight win since joining Hollywood.

The third-place Seattle Rainiers dropped a 10-inning first game of a doubleheader to San Francisco, 6 to 4, but Carl Fischer hurled the Rainiers to a 1 to 0 win with his two-hit performance in the seven-inning afterpiece.

At Hollywood, Bill Thomas yielded 10 hits but defeated his former employers, San Diego Padres, 4 to 3. It was Thomas' sixth straight win since joining Hollywood.

Brooklyn's success provided French with his 12th victory against only one loss, although his four-hitter was matched by Melton, but it didn't keep St. Louis Cardinals from picking up half a game and reducing the Dodgers' lead to eight lengths.

The Cards downed Chicago Cubs in both ends of a double bill 9 to 4 and 8 to 3. John Beazley registered his 13th pitching victory in the opener, although he yielded 10 of the 11 hits and failed to finish, and Harry Gumbert pitched eight-hit ball as the Cards coasted through in the afterpiece on 13 blows, one a homer by Enos Slaughter.

Cincinnati Reds regained third place in the standings, with the help of Boston Braves and the shutout pitching of Johnny Vander Meer.

"Double No-hit" Johnny tossed a three-hitter at Pittsburgh Pirates in a night contest which the Reds won 3 to 0, with Frank McCormick hitting three singles and a double in four appearances and driving in two runs.

Earlier in the day, the Braves knocked New York Giants loose from their hold on third place by sweeping a doubleheader, 1 to 0 and 8 to 2, and bringing an end to a five-game winning streak. Singles by Al Roberge and Tommy Holmes produced the only run of the first game as Al Javery blanked the Giants on seven hits, but the Braves broke loose with 18 blows to win the nightcap easily for Lou Tost.

In the American League, the Yankee victory gave Hank Borow his 11th pitching success against only two defeats and stretched New York's lead to 13 games over the Red Sox. However, the Red Sox tightened their grip on second place since Cleveland Indians dropped a doubleheader to Detroit Tigers and watched their losing streak mount to six games. Murray Franklin's two-run

Lowe-Gervais Stars as V.M.D. Win Ball Crown

Comeback Zivic Battles Young

NEW YORK (AP)—The weekly fight show at Madison Square Garden tonight looks like a cross between a circus and a rodeo, with plenty of busted heads to go around and Fritz Zivic thrown in for laughs.

Fritz is always good for a laugh—except for the guy he's fighting. This time it's not going to be funny for either himself or southpaw Garvey Young, the United States marine out of Cleveland who recently gave welterweight champ Red Cochran a going over. Garvey and Fritz tangled in one of the three 10-rounders of the Garden's "triple-header" punch party, in which a couple of the better lightweights, Philadelphia Bob Montgomery and Long Island's Bobby Ruffin, commit as much legal mayhem as they can in the co-feature.

The third "tenner" puts Maxie Shapiro, a busy little local larper, and Cleo Shans, a rapid negro from Los Angeles, against each other.

Some 11,000 of the faithful are expected to drop about \$25,000 into the Garden's cash registers to sit in on the nose-mashing.

COAST LEAGUE

The last-place Portland Beavers are not playing the way their Coast League baseball record indicates they should and the result is embarrassing the top Los Angeles club.

Wednesday night the Beavers just missed sweeping a doubleheader from the Angels, who won the seven-inning opener, 5 to 4, in the final inning, but dropped a free-hitting second game 6 to 4.

In the nightcap Portland amassed 14 safeties to 11 hits collected by the Angels.

Sacramento, the second-place club, climbed to within two and a half games of the Angels by thumping Oakland for the second consecutive night, 8 to 3.

The third-place Seattle Rainiers dropped a 10-inning first game of a doubleheader to San Francisco, 6 to 4, but Carl Fischer hurled the Rainiers to a 1 to 0 win with his two-hit performance in the seven-inning afterpiece.

At Hollywood, Bill Thomas yielded 10 hits but defeated his former employers, San Diego Padres, 4 to 3. It was Thomas' sixth straight win since joining Hollywood.

Brooklyn's success provided French with his 12th victory against only one loss, although his four-hitter was matched by Melton, but it didn't keep St. Louis Cardinals from picking up half a game and reducing the Dodgers' lead to eight lengths.

The Cards downed Chicago Cubs in both ends of a double bill 9 to 4 and 8 to 3. John Beazley registered his 13th pitching victory in the opener, although he yielded 10 of the 11 hits and failed to finish, and Harry Gumbert pitched eight-hit ball as the Cards coasted through in the afterpiece on 13 blows, one a homer by Enos Slaughter.

Cincinnati Reds regained third place in the standings, with the help of Boston Braves and the shutout pitching of Johnny Vander Meer.

"Double No-hit" Johnny tossed a three-hitter at Pittsburgh Pirates in a night contest which the Reds won 3 to 0, with Frank McCormick hitting three singles and a double in four appearances and driving in two runs.

Earlier in the day, the Braves knocked New York Giants loose from their hold on third place by sweeping a doubleheader, 1 to 0 and 8 to 2, and bringing an end to a five-game winning streak. Singles by Al Roberge and Tommy Holmes produced the only run of the first game as Al Javery blanked the Giants on seven hits, but the Braves broke loose with 18 blows to win the nightcap easily for Lou Tost.

In the American League, the Yankee victory gave Hank Borow his 11th pitching success against only two defeats and stretched New York's lead to 13 games over the Red Sox. However, the Red Sox tightened their grip on second place since Cleveland Indians dropped a doubleheader to Detroit Tigers and watched their losing streak mount to six games. Murray Franklin's two-run

major league "Blind Toms." . . . "I'll show you," Frank howled, and he waved his arm in a circle and roared, "Y-r-r-r ow-w-it." "I could do that all day," he added. . . . Klem just grinned. . . . "No you couldn't," he replied. "Suppose the runner was safe?"

Blank Navy To Capture McGavin Cup

Paced by that sparkling shortstop, Ian Lowe, who smashed out three hits in four times at the plate, including a towering home run over the left-field fence, Victoria Machinery Depot whites washed the Navy 7 to 0 Wednesday night to win the championship of the senior ball league and possession of the McGavin Cup. The game attracted 1,500, largest crowd of the season.

Although the V.M.D. have clinched first place, there is still a mad scramble for the remaining three playoff spots. Wednesday afternoon the R.C.A.F. turned back the Army 3 to 2 to further complicate matters. The V.M.D., Navy and Pitzer and Nex are sure of making the playoffs but the fourth position can go to either the Army, Eagles or R.C.A.F. with the Army in the best spot. It is possible the fourth club will not be determined until the final league game Saturday night.

Under the playoff system for the city championship the V.M.D. will play the third-place club and the Navy, with second spot clinched, will battle it out with the fourth team. The winners will meet in the final round.

Lowe, who personally whipped the Navy in their previous meeting with a two-run homer in the first inning, accounted for four of his team's runs Wednesday night. The four-base knock came in the third inning on the first ball pitched and was a tremendous drive that easily carried 375 feet.

SMART HURLING

Sharing the spotlight with Lowe was Lefty Gervais, smooth-working southpaw hurler of the V.M.D. He held the Navy crew to four scattered hits and allowed only one man to reach third base. Gervais struck out five and received errorless support from his teammates. When the Navy threatened in the fifth, by getting the first man up on base, the V.M.D. infield pulled off a fast double play, Euerby to Strouger to Work.

Jack McIntyre, another southpaw, who gave the V.M.D. so much trouble in their last meeting, paraded to the mound again but received a hot reception. After being touched for six hits and four runs in three innings he was chased in favor of Jimmy Dumeah, new arrival from Windsor, Ont. The chunky right-hander fared little better, giving up six hits and three runs.

The V.M.D. had their big guns well-sighted all night and practically every man on the club was hitting the ball hard. The shipyarders got to McIntyre for two runs in the first inning. Babe Work singled, was sacrificed to second by Harney and scored on Lowe's sharp single through shortstop. Duffy bounced a single off McIntyre's shins, sending Lowe to second. Strouger dropped a single in short left, scoring Lowe, but Duffy was thrown out trying to reach third.

In the second with two away Gervais was given a life on third sacker Thompson's bad throw to first, and went all the way round when Work lifted a double into left centre. Lowe's homer made it 4 to 0 at the end of the third. Lowe drove home another run in the fifth when Harney walked, stole second, went to third on a

the first heat as Pay Up trotted the mile at 2:06. The Ambassador won the second mile in the same time. Seven Up, lightly regarded trotter owned by Lieut. Ebby Gerry of the United States Army Air Corps, took runner-up honors, with Pay Up in the picture for third money. But White left nothing for argument in the third heat as The Ambassador pulled away to win in 2:04.

BIG DISAPPOINTMENT

Colby Hanover was the biggest flop to the crowd, estimated at 12,000 to 15,000. The champion two-year-old of 1941, who had trotted a mile in 2:03 this year, was made the odds-on favorite for the first two heats and heavily supported in the third. But he never was a factor, finishing eighth, eleventh and tenth.

In taking down \$20,488, the winner's share of the \$38,554 purse. The Ambassador justified the confidence placed in him when Strang took him out of the 1940 Walnut Hall yearling sales for \$5,000. He was lame last year and didn't start. The Ambassador in the second returned \$68.20 and \$3.40 in the third.

Class Results in Seniors' Golf

Second round results in the class championships and flights of the Seniors' Northwest Golf Association, at the Colwood Club Wednesday, follow:

FIRST FLIGHT
John Hart beat J. W. Ruggles 4-2.
A. Macdonald beat H. G. Garrett 2-1.
A. R. McMillan beat C. F. G. Pattullo 2-1.
V. T. Tustin beat W. H. Abbott 2-1.
CLASS AA CHAMPIONSHIP
R. W. Gibson by default.
G. R. Naden beat E. C. Benkler 3-2.
FIRST FLIGHT
J. E. Wilson beat E. J. Roberts 2-1.
F. Stewart beat J. E. P. P. 2-1.
CLASS A CHAMPIONSHIP
R. Hall beat W. H. Miller 4-2.
C. V. Stanley beat J. E. P. P. 2-1.
W. G. Wilson beat C. H. Woodin 4-2.
J. P. Bell beat E. L. Howard 2-2.
FIRST FLIGHT
R. D. Merrill by default.
L. B. Lundy beat M. J. Keys 2-1.
T. Alward by default.
Curtis Harold by default.
CLASS B CHAMPIONSHIP
W. A. Granger beat F. Conley at 21st.
O. A. Wright beat N. Adams 2-1.
J. McCallum beat W. S. Babbon 2-1.
W. B. Burns beat M. H. Dobbie at 19th.
FIRST FLIGHT
E. A. Burr beat W. H. Arkel 2-1.
J. A. Easton beat O. M. Tripp 2-1.
J. J. Dempsey by default.
C. H. Rutherford beat J. C. Feendray 2-1.
CLASS C CHAMPIONSHIP
W. McCulloch beat J. O. Matthews 3-2.
C. H. Ralston beat P. G. Grier 5-4.
F. C. Neal beat A. H. Tilsom 2-2.
S. L. Russell beat E. L. Steel at 21st.
FIRST FLIGHT
J. McKinley beat H. A. Arkel 5-4.
W. F. Remington by default.
D. R. Fisher beat J. Bevington 3-2.
C. H. Rutherford beat J. C. Feendray 2-1.
CLASS D CHAMPIONSHIP
F. W. Cutler beat D. A. Munro 4-3.
R. M. Dooley beat H. F. Pratt at 19th.
Cassius Gutter beat W. F. McCaffrey 2-1.
C. C. Duffy beat A. C. Turner 3-2.
FIRST FLIGHT
A. C. McCulloch beat R. D. McLaughlin 4-2.
J. Sebastian beat R. D. White 3-1.
P. Wolfe beat W. B. Beecher at 19th.
H. C. Temple beat D. Corbet at 19th.
**SECOND FLIGHTF. W. Walker beat G. A. Bailey 2-1.
W. A. Taylor beat W. S. Babbon 2-1.
J. M. Meany beat S. K. Campbell 2-1.
THIRD FLIGHT
J. I. Colwell beat W. H. Allen at 19th.
R. G. Wright beat W. G. McLaren 1-1.
R. Gordon beat L. S. Y. York 7-6.
T. O. Mackay beat W. H. Wilson at 19th.
FOURTH FLIGHT
C. A. Strong beat P. F. Ellis 1-1.
W. B. Neilson beat H. F. McCaffrey 1-1.
J. P. Hausman beat H. H. Schofield at 19th.
FIFTH FLIGHT
T. Cole beat B. S. Heisterman 2-1.
J. Y. Day by default.
H. H. Jones beat M. D. Hamilton 4-2.
SIXTH FLIGHT
F. D. Hammond beat L. G. Pattullo 2-1.**

To Discuss Plans

NANAIMO (CP)—H. B. Forward, secretary of the Pacific Coast Amateur Hockey League left Wednesday for Vancouver to make arrangements with mainland hockey officials for a meeting in Nanaimo shortly to discuss plans for continuing despite the war.

Last season the league operated as a four-team circuit, with Nanaimo, Victoria, New Westminster and Vancouver teams. League president Jack Ryan said he did not want to discuss possibilities of the 1942-43 hockey picture until after the annual meeting, because it is not known at present what effect, if any, the war may have on continued operation of the league.

Coach Bill Phillips, whose Nanaimo Clippers last year won the league title and went on to take the western Canada intermediate crown, said his plans in connection with hockey this winter are "military secrets." He added, however, that he was "definitely interested" in continuing the league.

Wallaces Eliminated
VANCOUVER (CP)—Wallace United, winners of the British Columbia title last year under the name of Richmond Farmers, Wednesday night dropped out of the 1942 lacrosse picture when they lost a 10 to 9 decision to Norvans in an Inter-city League game here.

The defeat eliminated Wallaces from any chance of a playoff berth. Johnny Douglas and Ernie Kelly with two goals each led the winners, while Dougie Smith with three markers was top man for Wallaces.

passed ball and trotted across the plate when the shortstop rifled the ball over second. Three singles by Restell, Gervais and Work gave the V.M.D. another run in the sixth. In the eighth, with the bases loaded, Dumeah forced a runner home with a walk, giving the V.M.D. their seventh and final score.

Lowe and Work shared the batting honors for the night, each with three hits in four attempts. Short score: R. H. E. V.M.D. 7 12 0; Navy 0 4 3. Batteries—Gervais and Harney; McIntyre, Dumeah and Whitney; Menard. Umpires—Restell and Newman.

2nd Front Job of Military Experts

Albert H. Fiebach, Imperial Potentate, Gizeh Shrine, of Cleveland, Ohio, discussing the agitation for the opening of a second front against the Axis powers, said: "There has been a lot of loose talk about the establishment of a second front in Europe, but in my opinion, that is a question which should be left to the military experts to decide and not the politicians."

Imperial Potentate Fiebach, who is making a tour of the Shrine temples in Canada and the United States, reached Victoria this morning to meet local Shriners before going on to Tacoma.

He was accompanied by Judge Grover Cleveland Nolte of Tacoma, and L. H. Rawlings, illustrious Potentate of the Victoria temple.

Victoria Shriners held a luncheon today at the Empress Hotel in the Imperial Potentate's honor, prior to his departure for the afternoon boat for Seattle.

Of the part the United States is playing in the war, Mr. Fiebach said the American people were back of the government 100 per cent, irrespective of political affiliation.

"We have a few saboteurs in the United States, but we know how to deal with them," he said, touching on recent events across the border.

Coming here from Port Arthur, Ont., by way of western cities, Mr. Fiebach said he had been deeply impressed by the "spirit and extent of the Canadian war effort."

He was given every opportunity to see things on his way across the country and was amazed by the development everywhere.

NO STARVATION HERE

"One thing is certain; there will be no starvation in this country," said Mr. Fiebach of Canada's bountiful grain crops. "I understand Canada has storage space for 1,000,000,000 bushels of wheat and that the prairie crop is estimated at 1,250,000,000 bushels."

Bumper crops would also be harvested in the United States this year, he said.

Shriners, within the past two decades, have raised over \$30,000,000 in the great humanitarian work of making crippled children well.

90 PER CENT CUT IN BANANAS DUE

Possibility that the supply of bananas to western areas of Canada and the U.S. might be cut by as much as 90 per cent was expressed by city wholesale dealers today. It is said that one company only, the United Fruit Company, New York, handles all banana business in the two countries. It is possible the U.S. government may take over the company's 60 ships, this leading to the drastic cut in supply.

These bananas, although handled by the U.S. company, and auxiliary branches, come from Central America.

A shortage of this fruit is being felt already in Victoria, but another carload is expected soon.

Want All Students At School Sept. 1

Victoria school trustees today appealed to parents whose school-age children have been working in shipyards and other industries during the summer, to carefully consider whether the children should continue to work or return to school which opens September 1.

Trustee Austin Curtis brought the matter to the attention of the school trustees Wednesday night. "The high wages paid now in certain lines of endeavor will not continue indefinitely," the board said in a statement, "so that advantages of completing a sound education will in the long run far outweigh any financial gain at this time."

Trustee Mrs. A. S. Christie said she had been considering the matter for some time and heartily endorsed the statement.

Seniors' Golf

Thomas, Hughes Play in Final

Frank Thomas, Victoria, a former holder of the city championship, and E. H. Hughes, Spokane, will meet Friday morning, over 28 holes, for the championship of the Seniors' Northwest Golf Association. In today's semifinals at the Colwood Club Thomas defeated Jack Ballinger, Seattle, Monday's medalist, 3 and 2, while Hughes won from Grant Dixon, Spokane, by default.

Thomas has a chance to become the first Canadian to win the title since Bernie Schwenger turned the trick in 1937. Since that date the title has been held by Americans—H. A. Fleagler, Seattle, 1938; Ballinger, 1939, and Dr. J. P. Loudon, Yakima, 1940-41.

Friday's final will start shortly after 10.

In the semifinals of the first flight Premier John Hart defeated Dr. A. Macdonald 3 and 2. He will meet the winner of the match between A. R. McMillan and V. T. Tustin, Spokane.

That grand old man of the seniors, R. W. Gibson, won the class AA championship, defeating G. R. Naden, 2 and 1. Both are from Victoria.

In the class C championship, G. H. Raleigh, Tacoma, and F. C. Neal, Tacoma, reached the final. The former defeated W. McCulloch, Portland, 2 and 1, while Neal eliminated S. L. Russell, Seattle, 1 up.

Extra hole matches were played in the semifinals of the class D championship. F. W. Cutler, Palm Springs, won at the 19th hole from R. M. Dooley, Portland, and Cassius Gates, Seattle, defeated C. B. Duffy, Portland.

THOUSANDS SING AT PARK CONCERT

The usual crowd of thousands attended the weekly cheer-up concert at Beacon Hill Park Wednesday night to dance on the green, and participate in sing songs led by "Curley" Perreault.

Winners of the regular singing contest, held for members of the armed forces were: first, Stoker "Paddy" Wakefield, R.C.N.; second, Corporal Lillis, Medical Corps; third, A.C. Collier, R.A.F.

Besides the many thousands attending the concert, there were hundreds of others who stayed at their homes near the park. They sat on their steps, and on porches and enjoyed the musical program which is carried over a public-address system.

Probes Labor Row

OTTAWA (CP)—Labor Minister Mitchell announced today that F. E. Harrison, western representative of the labor department at Vancouver, will investigate a dispute between West Coast Shipbuilders Ltd. of Vancouver and its employees, members of Local 1, Boiler-makers and Iron Shipbuilders' Union of Canada, an affiliate of the Canadian Congress of Labor.

The dispute was said to affect about 1,400 employees, and it arises out of a request for union recognition and collective agreements.

Nazis Claim Wasp Set Afire

BERLIN (From German Broadcasts, AP)—The German high command claimed today the United States aircraft carrier Wasp had been set afire by six direct bomb hits and now "is trying to reach Malta" as a result of a running attack on a big Allied Mediterranean convoy by German and Italian air and naval units.

"The rising sun the fog dispels And all things are revealed. And makes us all to realize The things the fog concealed. The darkest hour before the dawn For now has no fear. The sun is rising in the east And all fears disappear. So let our thanks ascend on high. To God, who rules above. Who gave to us the rising sun. An emblem of His love."

—E. B. ANDROS
1206 Beach Drive.
Mrs. T. Crab, 1127 Balmoral Road, was treated for bruised arms and legs at St. Joseph Hospital shortly after 1 Wednesday evening, the result of being knocked off her bicycle in a collision with an auto, driven by Mrs. M. Taggart, 968 Admiral's Road, at Pandora Avenue, and Quadra Street.

Rip-currents are distinct from undertow; the latter being a subsurface flow away from the shore, while the former is a neck-like current which enlarges and breaks up as it goes out to sea.

The typewriter goes with practically every basic unit of the armed forces; it has been hauled on dog sled, packed on mules and flown in command planes.

Anomaly Explained

Many Still Unemployed Despite Shortage of Labor

Shortage of skilled and unskilled labor in this area shows no signs of abatement, according to A. J. Mudge, manager of the Employment Office of the Dominion government in Victoria.

Parallel with this situation is the anomaly of a number of unemployed registered at claims offices, a circumstance which was explained by J. H. McVety, regional superintendent of the unemployment office on a visit here recently.

Mr. McVety, after analyzing figures of vacancies and unemployed registered at claims offices, says that the circumstance arises from the difficulty of putting the right man in the right job.

Records of one of the employment and claims offices at the end of July, Mr. McVety said, show there were 368 male applicants for work listed and 522 unfilled vacancies. In the great majority of cases the applicants were not qualified to fill the vacancies.

WANTS RIGHT MAN

"Naturally," the employment superintendent said, "when an employer asks for a ship's fitter he will not be satisfied with a man who is equipped by training and experience to do something quite different."

At the claims office referred to, Mr. McVety said, there were three vacancies for general office work, while no fewer than 65 bookkeepers and clerks had applied for work. On the other hand there were 88 vacancies listed for building and construction jobs with only 17 applications. Applicants

Hearing Date Set for Charges On Police Stores

Two charges were remanded until Aug. 20 and one until Aug. 19 by Magistrate Henry C. Hall this morning in the B.C. Police quartermaster stores conspiracy cases.

Joseph Arthur Walsh, managing director of Cathcart's shoe merchants, charged with Leonard J. Simmons, former B.C. police quartermaster, with conspiring to defraud in dealings with supplies that were allegedly never delivered to the quartermaster's department, was remanded until Aug. 19 for preliminary hearing.

Crown prosecutors, J. B. Clearhue, K.C., and W. C. Moresby, K.C., said they were ready to proceed with the case on that date.

John Graham Simpson, managing director of James Maynard Ltd., and George Henry Hall, drygoods merchant, similarly charged, with Simmons were given further remands until Aug. 20.

P. J. Sinnott, counsel for Simmons, has his request for more adjournments turned down by Magistrate Hall.

Mr. Sinnott said Attorney General, R. L. Maitland, K.C., had refused his requests for a copy of the departmental enquiry transcript, which led to the charges, and without which he could not go on.

"In view of the fact my client is a poor man and the Crown has the benefit of the transcript. I ask an adjournment until the attorney-general reconsiders or until after the session of the next Legislature when the transcript will be laid on the floor of the House and I will be able to get it," he said.

"Application refused," said Magistrate Hall.

Mr. Sinnott said that in the case of Hall and Simmons, he might ask for trial in police court.

Stuart Henderson, representing Hall, said he would not consider police court trial. He elected preliminary hearing and trial by higher court.

4 Fliers Killed

PORTAGE LA PRAIRIE, Man. (CP)—Four fliers from No. 7 air observers' school of the British Commonwealth Air Training Plan were killed here early today when an Anson twin-engine training plane crashed in a grain field one mile north of the airport while the men were engaged in a night navigation exercise.

Names of the victims were withheld pending notification of next-of-kin, but it was learned those killed included a civilian pilot and three air force men, the latter all overseas personnel.

Appearing in Provincial Police Court Wednesday on a charge of manslaughter, Leslie Green was remanded to Aug. 19 at the request of the Crown prosecutor.

Overnight Entries For Hastings Park

VANCOUVER (CP)—Official overnight entries, Hastings Park, sixth day, Friday, August 14, 1942.

First race—Claiming, three-year-olds and up, seven furlongs: The Past 118, Stolen Color 118, Merchiston 111, Truly Fly 106, Drop In 113, Broderick 111, Lev's Dust 106, Valdeia Craig 105, Khayyam 118, Arab Somers 107, Camp Spur 111, Silumo 106.

Second race—Claiming, three-year-olds and up, six and a half furlongs: My Debut 115, Torrey 120, Mint Boy 120, Rapid Mortgage 115, Black Chick 105, Cache Creek 109, Dark Devil 120, Happy Returns 113, Seona Maid 108, Charlie Boy 120, Abydos 117, Miss Chick 108.

Third race—Allowance, three-year-olds, seven furlongs: Sedco 106, Fighting Finn 112, Ronico 119, Nanfworth 102, Witch's Tail 105, Band O'Gold 105, Saffsworth 110, Lovers Lass 109, Broom's Sentry.

—Pitts entry.

—J. Diamond entry.

Fourth race—Three-year-olds and up, foaled in Western Canada, seven furlongs: Wavelength 113, Pagan Royal 113, Riverworth 112, Stalacum 113, "Penicuk 100, Jeff Himself 107, Will Hudson 113, Territorial 113, Miss Montrose 113, Bele Marcus 108, Rusty Mum 113.

Fifth race—The B.C. futurity, two-year-olds, foaled in Canada: Aspeggio 112, Nitrogen 113, Jazz Lady 113, Happy Duster 113, Goldenworth 113, Stateford 113, Jazz Fly 109, Treasure Band 113, Paddygoosey 116, Dry Belt 112, Eltorada 109, Western Prince 122, Omar's Gift 116.

Sixth race—Claiming, three-year-olds and up, six and one-half furlongs: Crackade 113, "Small Mortgage 108, Avondale King 111, Boo-Jack 111, Rysal Suzy 106, Lasswade 106, Frisco Boy 118, Golden Belt 106, "Proud Time 108, Playmaster 118, Swift Heels 106, Cordeius 106.

Seventh race—Claiming, three-year-olds and up, one mile and one-sixteenth: "Streamline 104, Camp Craig 107, Our Haven 113, "Miss Noyes 113, Idamarok 107, Hasty-Day 118, Acero 118, Once Upon A Time 117, "St. Simon 106, Zebella 106, "Stokesley 113, "Si Green 117, Spanish Ball 118.

Substitute race—Claiming, three-year-olds and up, six and one-half furlongs: Prevaricate 120, Terry Tet 109, First Vee 114, Pharima 104, Miss Goldstream 108, Sunny May 108, Selfish Joss 109, Hill Wind 107, Shasta Chub 113, Valerie Jean 111, Nonie-Leser 115, Trusty Mum 102.

Track fast; first post 5:15 p.m. * Apprentice allowance claimed.

Constable W. Murray. The charge arose from an accident July 24, when Green's car plunged over the side of the Malahat and a passenger, Peter Campbell, was killed.

Obituaries

Liberal Worker G. S. Creed Dies

George Stanley Creed, age 52, 939 Johnson Street, and a resident of Victoria all his life, died in Jubilee Hospital Wednesday afternoon. Mr. Creed was prominent in Victoria athletics in his youth and in later life with different organizations in the city.

Born in Victoria he was for 35 years connected with the Melrose Paint Co. Ltd., and in his youth was a member of the Victoria West Football Club. For many years he was associated with the Victoria Liberal Association, was a member of the Victoria Chrysanthemum Club and of the Court Northern Light, A.O.F.

He is survived by his wife and one daughter, Edna, at home; another daughter, Mrs. Peggy Taylor of Victoria; two sisters, Mrs. Albert Jordan and Mrs. Reginald Anker; two brothers, John and Walter Creed, and one grandchild, all living in Victoria.

Funeral services will be held at 2:30 Saturday afternoon from the Thomson Funeral Home. Rev. G. A. Reynolds will officiate. Interment at Ross Bay.

EMERSON—Funeral services for Catherine Ellen Emerson, who died Wednesday at her home, 3190 Richmond Road, were held this morning from McCall Bros' Funeral Chapel. Canon F. A. P. Chadwick officiated. Pallbearers were: H. G. Woollett, Dr. M. D. McKelhan, A. S. Warrender and R. J. Dymond. Interment at Ross Bay.

COCKSEY—Funeral services for Miss Hannah Cocksey took place from the family residence, 3230 E'don Place, Wednesday afternoon, Rev. O. L. Jull officiated. Interment, Royal Oak. Pallbearers were: W. Hay, George F. H. Farmer, W. McArthur, and J. Dewar. The Thomson Funeral Home had charge of arrangements.

LOMBARD—Requiem High Mass was sung Wednesday morning at St. Andrew's Cathedral over the remains of Mrs. Ada Wilson Lombard, pioneer resident of Victoria, who died at Mt. St. Mary Hospital, Saturday evening. The following were pallbearers: Frank J. Sehl, C. W. Geiger, Frank J. Doherty, S. I. Wilson, R. L. Adamson and V. Griffithon. At the conclusion of Mass, the cortege proceeded to Ross Bay Cemetery for interment. Hayward's B.C. Funeral Co. was in charge of arrangements.

GIN—The funeral of Lee Yit Gin took place Wednesday afternoon in Sands' Mortuary Ltd. Rev. Charles Lee officiated. Interment, Chinese Cemetery.

DAVIS—Sidney Walpole Davis, age 70, formerly of Medicine Hat, and retired from the Northwest Mounted Police, died this morning. Born in Gloucestershire, England, he came to Victoria from Medicine Hat a year ago. As a member of the Northwest Mounted Police he attended Queen Victoria's Jubilee. He leaves three sons, Sgt. Ldr. Ralph G. Davis, Regina; Sidney W. Davis at Elykum, Alta., and Arthur Davis in England, and one sister and three brothers in England. The remains are at the S. J. Curry Funeral Home. Funeral arrangements will be announced later.

Idaho Man Lands 48-Pound Tye

CAMPBELL RIVER—The fighting Tye king salmon are running now and F. Thompson of Lewiston, Idaho, holds the record so far this week by landing a 48-pounder and then another of 40 pounds. Close behind him was H. Crawford of Calgary with a 47½-pounder and A. N. Wolverton of Vancouver with a 46½-pounder.

Among the top Tye catches at Painters are: G. Landon, Tacoma, 45 pounds; Mr. Wolverton, 40 pounds and 34½ pounds; Bruce Heathcote, San Francisco, 31 pounds; Mrs. Randall, Vancouver, 38 pounds; Capt. Hodgins, Ottawa, 35 and 33½ pounds; John Crawford, Vancouver, 32 pounds; John Blankenship, Sardiff, B.C., 32½ pounds; Mrs. L. C. Waddington, Vancouver, 36 pounds; Mr. and Mrs. S. F. Kirkpatrick, Vancouver, two big springs and two cohes.

GOT A BOY for A BAND?

If there's a boy in your house that would like to join a band, bring him in and let us talk it over. If he is eligible for the band led by Mr. A. Prescott, he will receive free instruction.

1130 DOUGLAS Between Port and View

War-time Housing Will Go Ahead

Assurance that War-time Housing Ltd. will proceed with its plans to build 100 houses for V.M.D. workmen in the James Bay area was given Wednesday by H. S. Hammill, V.M.D. general manager, during the presentation of evidence before the Richards Commission.

Mr. Hammill said he had been in contact with R. W. Mayhew, M.P., who had learned from J. M. Piggott, president of War-time Housing, and Hon. C. D. Howe, Minister of Munitions and Supply, that construction would begin soon.

This announcement followed in the wake of information given the City Council Monday by Alderman T. W. A. Hawkins that it was unlikely the James Bay project would ever begin.

Although the contract for the houses was forwarded three weeks ago by the city to War-time Housing, no indication had been received at the City Hall as to whether the houses would be built.

While the project was a move in the right direction, the plans should have called for 300, not 100 houses, Mr. Hammill said.

NEW COMPANIES

Incorporation of seven companies was reported in British Columbia for the week ending today.

Largest was the S. B. Trick Lumber Co. Ltd. at Aleza Lake. Capitalization was listed at \$225,000. Others, with their capitalization, included: Ellis Contracting Co. Ltd., \$10,000, Vancouver; Shellacres Ltd., \$10,000, Nanaimo; Pacific Veneer Moulding Co. Ltd., \$10,000, Vancouver; Kwong Man Sang Co. Ltd., \$45,000, Vancouver; general merchants and importers; Eddy's U-Drive and Service Station Ltd., \$15,000, Vancouver, and Marjean Ltd., \$10,000, Vancouver.

The Mt. Lehman Credit Union at Mt. Lehman was also registered.

FUEL OFFICIAL HERE ON FRIDAY

D. Roy Cameron, deputy wood fuel administrator, will be in Victoria Friday to look into the fuel situation.

Ald. Charles Jones of Vancouver, chairman of a special city council committee set up to look after the interests of consumers, said today that if War-time Prices and Trade Board set a \$5 per unit sawdust price on an all-year basis as requested by sawdust dealers it would be "giving more consideration to the millmen than it is to the interests of consumers."

A.R.P. ACTIVITIES

Saanich District 9—District A.R.P. officers will meet at 8 to-night at the Brentwood Women's Institute Hall for election of officers. A. Cullen will preside.

Saanich District 8—Wardens and those in charge of first aid points are asked to attend a special meeting Aug. 19 at the Parish Hall. Capt. Leven will speak. Those successful in the first aid examination held at Royal Oak in May should obtain certificate and refund from Mr. Ennals, general secretary, A.R.P. office, Royal Oak.

Ration Office Needs Address Changes

Citizens who have changed their addresses since receiving temporary ration cards must notify the ration division War-time Prices and Trade Board, Central Building, View Street, Victoria, immediately, states A. Food, head of the division here.

This, he says, is imperative. Failure to notify any change of address will result in the consumer being without a ration card when they are mailed Sept. 7 or 8, when it will be impossible to obtain tea, sugar or coffee.

One motorist was fined \$15 for speeding and five \$2.50 each on parking convictions in police court today.

TOO LATE TO CLASSIFY

FOR RENT—ONE LARGE FRONT housekeeping room. Phone, light, fuel, etc. Use of kitchen. 430 William. E8427.

WANTED—FOUR OR FIVE ROOM FURNISHED house 135 to 145 per month. Close to city by Ave. 15. E8267. 2111-2-39

Mayor Challenges Evacuation Test

Mayor Andrew McGavin Wednesday challenged the publicity given the planned rehearsal for civilian evacuation from Vancouver Island.

He issued the following statement:

"I have had many calls today from citizens, who are somewhat alarmed about the publicity statement of Hon. Ian Mackenzie regarding evacuation of people from Vancouver Island—to the lower mainland, and that a rehearsal will shortly be held. I am rather surprised that Mr. Mackenzie has thought fit to alarm the people of Vancouver Island in this way. Any rehearsal plans that have been carried out without the publicity he apparently deems necessary."

"A few days ago, W. C. Mainwaring, chairman of the Provincial Civilian Protection Committee, was in Victoria and advised me that he and his committee are entirely responsible for evacuation of civilians, should such an emergency arise. I cannot imagine, however, that if evacuation ever becomes necessary, the people of Vancouver Island would be any safer in Mr. Mackenzie's constituency than anywhere on this island. It seems to me that evacuation plans in connection with the Pacific coast should call for the evacuation of civilians to places hundreds of miles from the city of Vancouver, because if evacuation of civilians from this island is ever necessary, the same goes for Vancouver."

Men Called to Army Needed on B.C. Farms

While the Allied governments are calling for more and more agricultural production, the men who are needed to prepare and harvest crops are being called into the army, Hon. K. C. MacDonald, Minister of Agriculture said today as he declared the shortage of farm labor has reached serious proportions.

The situation was one which was causing alarm, the minister said.

Dr. MacDonald noted he had urged authorities in Ottawa to enlarge the opportunity for extended leaves to men in the services who are agricultural workers. Such extended leave might assist materially in the harvest, he said.

Naval College Here To Open Sept. 1

OTTAWA (CP)—Navy Minister Macdonald, at a press conference in Ottawa today, said the new naval college at the former Dunsuir mansion at Hatley Park will probably open on Trafalgar Day, Oct. 21.

The last class at H.M.C.S. Royal Roads as a naval officers' training establishment is now nearing graduation. When the naval college opens boys in their late teens will enter for a two-year course.

Several Victoria boys have already been chosen to enter the college, now known as H.M.C.S. Royal Roads.

The minister also said the first class of about 70 prospective officers for the Women's Royal Canadian Naval Service will start training in Ottawa about Sept. 1.

'LADY IN A JAM'

OAK BAY, PLAZA

Have you ever heard of a functional ghost town?
You probably haven't, because Universal built the first one. It was erected in the desert wastelands of Arizona for Gregory La Cava's new Irene Dunne comedy, "Lady In a Jam," which comes to the Oak Bay and Plaza Theatres today.

A functional ghost town is like any other ghost town in the wide open spaces of the west except that it really isn't falling to pieces. You can live in it if you have to. Other ghost towns are deserted villages which the years have destroyed. A functional ghost town, however, is a group of old-appearing buildings which actually are in fine shape.

With lovely Miss Dunne in the starring role, the outstanding supporting cast includes Patric Knowles, Ralph Bellamy, Eugene Pallette, Queenie Vassar and Samuel S. Hinds.

'MOON OVER HER SHOULDER'

Her husband told her to get a hobby, but he never expected her to pick a tall, tan, sea-going glamour-guy. And when the hubby is a "love" doctor who makes his living fixing up other people's lives, then you have one of the most unusual situations ever filmed.

This is just what happens in 20th Century-Fox's new comedy, "Moon Over Her Shoulder," the film currently at the Rio Theatre. John Sutton has gained prominence as an authority on marriage problems. But he neglects his wife, Lynn Bari, in favor of his interest in his business. She does her best to get him to pay more attention to her, but he cannot be pulled away from his professional activities.

Western Melodrama Coming to Dominion

A fast-action melodrama of the old west is "Jackass Mail," which comes tomorrow to the Dominion Theatre.

Wallace Beery and Marjorie Main are starred in the outdoor opus, marking their fourth appearance together. They provide the laugh highlights of the film with their clumsy, blundering love scenes.

BOGART MAKES JAIL BREAK

Humphrey Bogart has escaped from prison before but never in such company. He fled the grim grey walls this time with a black-face comedian and a gollywog.

This is the kind of thing that goes on in Warner Bros. "The Big Shot," now playing at the Atlas Theatre, a perfectly serious melodrama which gets fancy only to the extent of devising as spectacular a jailbreak as possible for Bogart.

LANA TURNER IN CADET SHOW

Lana Turner from Spencer Tracy to Clark Gable to Robert Taylor.

That is the all-star play Miss Turner has made in rapid succession, with M-G-M's "Johnny Eager" co-starring her with Taylor in a new drama, opening today at the Cadet Theatre.

The new story has its setting in the underworld, dealing with the dramatic life of a parolee convict, who has lost all real emotions and depends upon those who faked for success.

Dorothy Dix:

Widow Advised to Stop Sacrificing for Children

Dear Miss Dix:—For 22 years I have been a widow. During that time I have reared and educated two children who are married now and have homes of their own. The question in my mind is what to do for the good of us all. At present I am self-supporting and will be for many years to come. I never intend to be dependent upon my children. They have a right to their own lives and will be happier to themselves.

I am wondering whether I should consider marriage, or continue to work and make an effort to save enough for my old age when I can no longer support myself? But when I think of marriage I realize that it would change things between my children and myself, and if they ever needed help I might not be able to give it to them. I have shared everything that I have had with them ever since they married, and I know that no husband would accept a situation of that sort, and I would not expect him to.

Should I consider my children further, or should I think of myself? I get very lonely for companionship.

W. V.

Answer:—I think that whether you marry or stay single you should consider yourself. Certainly you are not doing that, nor are you laying up anything for your old age when you are giving every cent that you can spare to your married children. That is not best for you, nor is it best for them. You should force them to stand on their own feet and support their own families. Even an English sparrow has sense enough to push its young out of the nest when the time comes for it to use its own wings.

As long as parents give to their children the children will take, because they have been accustomed to it; they think of father and mother only as a source of supply. But when father and mother fail to lay up something for their old age, the children, especially the children's husbands or wives, consider it a great hardship to have to have father and mother live with them. Think that over. You have seen it happen too often to others not to know how tragic will be your situation if you, too, become a dependent mother.

MUCH TO BE CONSIDERED

As to the wisdom of your marrying, that depends upon so many things that would make it either advisable, or like jumping from the frying pan into the fire. Is there some definite man who wants to marry you, or are you just considering marriage in general from the point of view of wishful thinking? If there were some ideal man of your own age and social class, whom you have known for a long time and with whom you have had a pleasant friendship so that you know you would be congenial companions on the last lap of your life's journey, and if the man could give you a good home and leave you enough money to live on if he died, and if he had no encumbrances in the way of married children who would resent their father's taking a wife, I should say go to it. And God bless you.

But if, on the contrary, you have no common background with the man and if he is poor and would have nothing to give you, I should say it would be the wildest folly to marry him, because the chances would be that you would have to continue with your job and support him and, in addition,

would have to nurse him and put up with his cranky ways.

Don't forget that you can hang on to your job for probably many years, but if you lose it, at your age you couldn't get another. Think over all these angles of your case before you make a decision.

ONLY SALVATION IS FLIGHT

Dear Dorothy Dix:—I am a young man, 21 years of age. I have been going with a girl for nearly two years and she is determined to marry me whether or no, but I am not ready to marry and wouldn't marry even a king's daughter because I am too young, and I have seen too much of this young married life among my friends, most of whom are sorry they married. However, this girl has told people that she is going to get me, so what can I do?

It doesn't do any good to tell her that I won't marry her. She just won't listen.

SANDY.

ANSWER:—Well, Sandy, your only hope is in flight. Beat it while the going is good. Enlist in the army. That gives you a good out. And, believe me, the enemies' bullets are not so dangerous as a girl who has the marrying complex.

It will be in vain for you to plead your youth. She will tell you that youth is the time of love and romance and anyway, that is an objection which time will remove. Nor will it do any good to tell her that you are poor and not able to support a family. She will argue that two can live cheaper than one, and that she is willing to live on bread and cheese and kisses. The first thing you know you will be buying a wedding ring on the installment plan. And you will be paying for it the balance of your life.

Take it from me, son, no man is foxy enough to outwit a girl who has made up her mind to have him. If he stays around in her vicinity, she will snare him sure, no matter how warily he walks among her traps. His only salvation is flight. In your case absence of body is better than presence of mind. You may be able to outstrip this girl, but you can never outwit her.

Dear Dorothy Dix:—I am a woman in my late thirties. Have been married 13 years and have two children. My husband has a very responsible position. Makes an excellent salary and provides very well for us. But on several occasions he has had affairs with other women. They have always been passing fancies, but at the present time he is having an affair with a young married woman who is working in his office. She is attractive and he apparently has fallen very hard for her. I hear that she brags about how she has taken him from me. This hussy's husband works at night, so he does not suspect her duplicity. What shall I do? Shall I tell my husband all and ask him what he intends to do? Or should I appeal to this girl's husband to help me break up the affair?

D. M.

Answer:—Don't call for a showdown from your husband. It gives him too good a chance to say that he wants a divorce. Ask the woman's husband to help you break up the affair. That will give you an ally. He probably will give her a talking to that will bring her to her senses and make her realize she can't have a husband to support her and a boy friend to take her out and give her good times.

Uncle Ray

Wheat and Corn Lead North America's Grains

There is a question which thousands of persons have asked playfully. It is, "Do you eat or live or live to eat?"

In these days, when most of us do not care to grow fat, a majority can answer truthfully that they eat to live. There are so many interesting things about life that it would be foolish to spend much time thinking about food.

ONE OF THE GRAIN ELEVATORS AT FORT WILLIAM, ON THE SHORE OF LAKE SUPERIOR. 8-13

At one season of the year, however, I find myself thinking about food. That is in the sweet corn season! If I can have three or four ears of the right kind of sweet corn, I do not care for much else at dinner time.

To this day some persons eat young ears of corn of the kind fed to livestock, and say they like it. That is not what I care for. The kind which appeals to me is the sweet corn grown for the table, especially Golden Bantam which has been picked only a few hours before being placed in hot water.

Although fresh sweet corn may seem important for the table, it is not eaten to the extent of the sweet corn which is canned. Canned corn lasts through all seasons, and is one of the leading kinds of canned goods.

The name "corn" has been used in England for many hundreds of years to cover the various kinds of grain, especially wheat. In Scotland the people often speak of oats as "corn."

On this side of the Atlantic, the name has come into general use for "maize" or "Indian corn" which early settlers found the Indians growing.

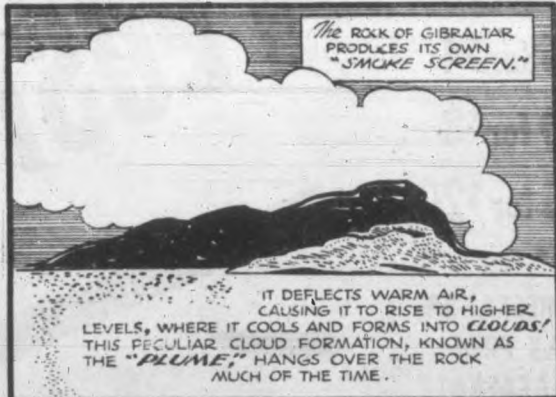

Corn and wheat are the leading grain crops on this continent. In Canada far more wheat is raised than corn, but in the United States it is the other way around. Canada's corn crop last year was close to 12,000,000 bushels, a little more than one bushel for every Canadian man, woman and child. The wheat crop was large enough in 1940 to provide 49 bushels for every person in Canada. The wheat crop was smaller in 1941, but it still was many times as great as the corn crop.

The United States raises more corn, or maize, than any other country in the world, more than all other countries together. Last year's crop was large enough to supply 23 bushels for every American.

The way it works out, most of the corn crop is eaten by animals, not by people. Farmers feed about four-fifths of it to cattle, hogs and other livestock.

THIS CURIOUS WORLD

By William Ferguson

IT DEFLECTS WARM AIR, CAUSING IT TO RISE TO HIGHER LEVELS, WHERE IT COOLS AND FORMS INTO CLOUDS. THIS PECULIAR CLOUD FORMATION, KNOWN AS THE "PLUME," HANGS OVER THE ROCK MUCH OF THE TIME. 8-13

THE ROCK OF GIBRALTAR PROUDLY IS OWN "SMOKE SCREEN."

2,000 Canadians In Middle East

OTTAWA (CP)—Some 2,000 Canadian air personnel are serving in the Middle East. It is disclosed in an R.C.A.F. statement issued here in connection with the arrival in London of Air Minister Power.

The statement said Maj. Power will study in London "the situation of Canadian air personnel in the Middle East, where it is estimated some 2,000 Canadian air personnel now are serving, some with the R.C.A.F. fighter squadron stationed in that theatre, and the remainder serving with R.A.F. squadrons."

It added that there are also "numerous" Canadian flyers aiding in the hard-fought defence of Malta.

Better English

By D. C. WILLIAMS

1. What is wrong with this sentence? "I see Margaret every once in awhile."

2. What is the correct pronunciation of "suave"?

3. Which one of these words is misspelled? Repellent, repetoire, repetitious.

4. What does the word "acrimony" mean?

5. What is a word, beginning with co that means "expressing scorn or disdain"?

ANSWERS

1. Omit every, or say, "I see Margaret now and then." 2. Pronounce suave, a as in ah, or a as in say. 3. Repertoire. 4. Harsh or biting sharpness, as of temper or language. "Ridicule often settles things more thoroughly and better than acrimony."—Horace. 5. Contemptuous.

HOROSCOPE

AUGUST 14

Good and evil appear balanced in the forecast for today. News from abroad may prove discouraging and many persons may seek diversion. Theatres should be well patronized at this time.

Persons whose birthdate is 14 have the augury of an eventful year. Children born on this day may be energetic and ambitious.

GOERING

Would Blast Your Radio!

Hitler's windbag, Goering, would give a king's ransom to see our radios ruined and wrecked!

Don't let him! Don't let anything stop you from keeping YOUR RADIO in tip-top shape

Repairmen listed under "RADIO REPAIRS" in the TIMES Classified Pages are ready to serve you... to keep your reception "on the beam" always. Turn there NOW!

It's Patriotic to Conserve!

ANSWER: "Lapsus linguae" means a slip of the tongue... and one slip these days might tell an Axis spy all he wants to know.

OUR SPECIAL FOR TOMORROW

1938 STUDEBAKER COMMANDER SEDAN in first-class condition—all good tires. This car has a radio and defrosting heater and lots of other extras. **\$895**

Extra special for

JAMESON MOTORS

240 BROUGHTON STREET LIMITED

B.C. Papers Win Awards

SASKATOON (CP) — Senior trophy in member competitions conducted by the Canadian Weekly Newspapers Association was awarded today to the Pentiction Herald, a B.C. publication which, "by all measuring sticks, stood one full step ahead of all competitors" in a contest marked by general excellence.

The Pentiction Herald was entered in competition for Class 1, taking in papers having a circulation of 2,000 or more. The Herald won the Mason trophy as the best all-round paper in its class, and it also took the David Williams cup for the best editorial page.

In Class 2, for papers with 1,000 to 2,000 circulation, the Charles Clark cup went to the Powell River News, with 79 out of a possible 100, as the best all-round paper. Judge B. H. Mortlock said it contained news of local news, a full page of sports, a fine editorial page, heavy local advertising and good typography.

Forty-one contestants were judged in Class 3, papers with circulation of 500-1,000. The Hugh Savage Shield for the best all-round paper went to the Acton, Ont., Free Press, which won 67 points out of a possible 100, with the Rossland, B.C., Miner second.

The John W. Eddy memorial trophy for the best editorial page in Class 3 was won by the Creston, B.C., Review, with 81 out of 100 possible points.

In Class 4, for papers under 500 circulation, the Charters Cup was presented to the Whitehorse Star, the only paper in the Yukon, described as "a little short of a gem when one considers how far removed it is from the centre of things and the limited territory in which it is forced to operate."

He Never Took Her Out Until . . .

He was a fine husband in most ways—but for months now she hadn't been able to stir him out of his chair in the evening. They never went anywhere—they were losing their friends. All the fun and comradeship was going out of their marriage.

His excuse was always that he was "too tired"—until she got sick of hearing it. Then . . . one day when talking to her doctor about George, he suggested Dr. Williams' Pink Pills. George said he'd try them but didn't believe they could help him. To his surprise and her delight, soon he began to notice that his work did not tire him as it had. He slept more soundly, ate better and his nerves felt calmer. You'd never know George today—he's going ahead in his business—he comes home full of vigor and in high good humor; is always ready for an evening's fun.

Many a man like George can blame his feeling of weakness or nervous exhaustion on a run-down condition of the blood. Don't wait—try Dr. Williams' Pink Pills now fortified with Vitamin B₁. They are wonderfully effective in building rich, red blood so necessary to vigor and strength and have helped thousands to get back "in the pink". Ask your druggist today for Dr. Williams' Pink Pills.

New Political Group Hinted

MONTREAL (CP)—Hint a new French-Canadian political party might be organized was contained in a speech here Wednesday night by Maxime Raymond, Liberal M.P. for Laprairie-Beauharnois.

He was proposing a toast to Rene Chalouit, Liberal M.L.A. of Quebec from Lotbiniere at a banquet held under the auspices of La Ligue Pour la Defense du Canada, an anti-conscription group, to celebrate Mr. Chalouit's recent acquittal here on Defence of Canada Regulations charges.

Mr. Raymond said: "Would it be permitted for me to say that it now is more important than ever to organize in one solid group all our best elements. We have reached a milestone in our history when bargaining with our duties is no longer permissible."

Mr. Chalouit outlined his conception of a political program for Quebec.

Here is the program Mr. Chalouit suggested to his audience:

"A government of patriots able to enforce resolutely, although not in any provocative way, a French-Canadian policy which would not hesitate to rid us of foreign trusts that have been enslaving us.

"A government which would through education give pride, audacity and determination anew to our youth.

"A government which would outline a bold, conquering social program foreseeing postwar problems and providing advantageous solutions for them.

"Let us be ready and I have a premonition that we will see the day of a glorious and shining liberation."

New Plum Prolific On Langford Gravel

Early gold plums of extra large size are now ripening on the F. H. Staverman ranch at Langford Lake and first samples have been sent into Victoria. The fruit is from Shiro trees brought in from the U.S. nine years ago by Mr. Staverman as an experiment to find something that would grow well on the Langford gravel areas. He planted the trees in the worst spot of his ranch, where only couch grass is able to grow on the gravel. Under irrigation the trees are producing this new wonder plum in quantity. Mr. Staverman has also introduced in this district the Maglio plum which was produced and patented by a breeder in Nelson, B.C. It is a late dark red plum, ripening in September and into October.
